

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Briefly discuss about all methods of textile printing?

Q.24 Draw a neat diagram of winch dyeing m/c and explain its working?

Q.25 Name different chemicals used in dyeing. Give their purpose?

No. of Printed Pages : 4

182617/032624A/2631

Roll No.

1st Year / Textile Processing

Subject :Introduction to Textile Wet Processing

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Following is a dye?

- a) Acid
- b) Direct
- c) Reactive
- d) All

Q.2 Which one of the following is a method of printing?

- a) Screen
- b) Block
- c) roller
- d) All

Q.3 In block printing blocks are made of _____?

- a) viscose
- b) wood
- c) polyester
- d) Plastic

Q.4 Lint doctor is an instrument used in _____ printing?

- a) Screen
- b) Roller
- c) Stencil
- d) Transfer

Q.5 Squeegee is made up of?

- a) Rubber
- b) Wood
- c) Iron
- d) Fibres

Q.6 Screen printing is advancement of _____ printing?

- a) Transfer
- b) Digital
- c) Roller
- d) Stencil

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. $(6 \times 1 = 6)$

Q.7 List any two alkalis used in printing?

Q.8 Name the chemicals used in vat dyeing?

Q.9 Name two dyes used to dye wool?

Q.10 List the equipments's used in block printing?

Q.11 Name styles of printing?
