- a) Brave b) Great  
c) Marvelous d) Interesting

Q.10 Communication by using \_\_\_\_\_ is verbal communication. (CO2)

- a) Words b) Expression  
c) Touch d) Space

**SECTION-B**

**Note:** Objective type questions. All questions are compulsory.  
(10x1=10)

**Read the passage given below and answer the question. (CO5)**

One of the greatest mysteries of bird life is travelling. Every year during autumn and early winter birds travel from northern regions of Asia, Europe and America to the southern warmer lands. They make the return journey again during spring and early summer. They are punctual unless they are delayed by bad weather. They face many dangers and hardships while travelling long distances through the air, over hills, forests, plains and large stretches of water. Sometimes sudden storms arise and drive them far out of course. Often they are blown right out of the sea and are drowned in the wild waves. At night bright lights attract and confuse the birds. They cannot fly at their fastest. The migration speed is usually from 48 to 64 km per hour and rarely exceeds 80.

Q.11 When do the birds travel from northern regions to southern warmer lands?

Q.12 What danger do they face when they are flying over the sea?
