

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Describe various setbacks.
- Q.22 Explain the architectural barriers faced by persons with disabilities?
- Q.23 Explain how setbacks are responsible to maximize natural light and ventilation.
- Q.24 Explain seismic zones in India as per IS 1893
- Q.25 Write briefly about building drawing norms
- Q.26 Explain the primary aim of zoning regulations.
- Q.27 Write in brief the building plan approval procedure.
- Q.28 Explain commercial and mercantile building.
- Q.29 Explain various factors to be considered while framing building byelaws
- Q.30 Explain the causes of earthquake.
- Q.31 Explain classification of seismic zones
- Q.32 Explain FORM BR - III
- Q.33 Write short note on “Stilt Parking”.
- Q.34 Describe fire safety measures as per building byelaws.
- Q.35 Differentiate between height zoning and density zoning.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Describe the necessity of building byelaws for urban development.
- Q.37 Explain the types of building as per National building Code.
- Q.38 Draw a neat sketch of a site plan showing covered area, open area, front load and setback etc.

Subject:- Building Bye Laws

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 The plan of the buildings and elevations and sections accompanying the notice shall be drawn to a scale _____
 - a) 1:10 b) 1:50
 - c) 1:100 d) 1:500
- Q.2 A _____ line usually parallel to the plot boundaries and laid down in each case by the Authority, beyond which nothing can be constructed towards the site boundaries.
 - a) Building line b) control line
 - c) Property line d) Plot line
- Q.3 Building bye-laws primarily aim to ensure:
 - a) Aesthetic appeal of buildings
 - b) Efficient land use and safety
 - c) Maximum building height
 - d) Minimal open spaces
- Q.4 What does “FSI” refer to in the context of building bye-laws?
 - a) Fire safety Index
 - b) Floor Space Index
 - c) Functional Space Integration
 - d) Facade Standardization Index
- Q.5 What does “Amalgamation” of plots refer to in building bye-laws?

(1) 180243/120243/030253

- a) Dividing a plot into smaller plots.
 - b) Combining two or more plots into a single plot.
 - c) Increasing the height of a building on a plot.
 - d) Reducing the setback of a building
- Q.6 Violations of building bye-laws can lead to:
- a) Minor Penalties only
 - b) Blacklisting of property or owners, demolition, and legal action
 - c) A warning and a chance to rectify
 - d) Nothing if the construction is already completed
- Q.7 Building bye-laws are generally enforced by:
- a) The central Government
 - b) The state Government
 - c) Local Municipal Authorities
 - d) Individual building owners
- Q.8 Which is not included in building codes?
- a) Mechanical Integrity
 - b) Safety
 - c) Providing employment
 - d) Structural Integrity
- Q.9 Which of the following is NOT a characteristic of building bye-laws?
- a) They ensure structural stability
 - b) They encourage haphazard growth.
 - c) They promote safety
 - d) They considered environmental Sustainability.
- Q.10 Which of the following is a common type of zoning regulation related to building height?
- a) Maximum building height.
 - b) Minimum building width
 - c) Setback requirements.
 - d) Building material restrictions.

SECTION-B

Note: Objective type questions. All questions are compulsory.
(10x1=10)

- Q.11 The _____ plays a crucial role in ensuring compliance with building bye-laws during construction.
- Q.12 The total area that is physically built upon, including the carpet area, walls, and balconies, is known as the _____
- Q.13 The national Building Code (NBC) categorizes buildings into different types, including residential, educational, institutional, assembly, business mercantile, industrial, storage, and _____ categories.
- Q.14 _____ to building, including projections like balconies, are also governed by bye-laws to maintain proper spacing and aesthetics.
- Q.15 The _____ is a comprehensive set of guidelines published by the Bureau of Indian Standards(BIS).
- Q.16 According to the National Building Code (NBC) of India, the minimum clear height for habitable rooms in a residential building should be _____
- Q.17 Zoning laws often incorporate height restrictions and setback requirements to regulate urban _____ and preserve open spaces.
- Q.18 Failure to comply with setback requirements can result in _____ from local authorities.
- Q.19 A _____ is a device designed to detect the presence of fire or smoke.
- Q.20 _____ is the primary code, providing the framework for seismic design, including seismic zones, design forces, and load combinations.
