

- Q.24 Draw an actual valve timing diagram of 4 stroke petrol engine.
- Q.25 Describe morse test in brief.
- Q.26 Draw a sketch of fuel feed system of SI engine.
- Q.27 Tell advantages of MPFI system.
- Q.28 Describe the need of cooling system.
- Q.29 Explain five properties / characteristics of lubricant.
- Q.30 Write five differences between petrol engine and diesel engine.
- Q.31 Explain functions of Piston rings.
- Q.32 Describe the requirement of lubrication system.
- Q.33 Describe Air cooling system with diagram.
- Q.34 Which power is higher indicated power or brake power? Explain
- Q.35 Describe the concept of simple carburetor.

SECTION-D

- Note:** Long answer type questions. Attempt any two questions out of three questions. (2x10=20)
- Q.36 Draw a circuit of battery ignition system and describe function of each component.
- Q.37 Describe principle and working of four stroke petrol engine with neat diagram.
- Q.38 Classify types of lubricants and give their examples.

Roll No. /030341

4th Sem / Auto Subject:- Auto Engine - I

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Stroke of Engine is the
- Volume of cylinder
 - Length of cylinder
 - Diameter of cylinder
 - Distance between TDC & BDC
- Q.2 The percentage of heat lost to the cooling is
- 10%
 - 30%
 - 50%
 - 70%
- Q.3 The function of lubrication system is/are to
- reduce wear & tear
 - cool the moving parts
 - clean away dirt
 - All of above
- Q.4 A cylinder having power stroke in every revolution of crank shaft is called
- Single Stroke Engine
 - Two Stroke Engine
 - Three Stroke Engine
 - Four Stroke Engine

(1) 180341/170341/120341
/030341

Q.5 The material for connecting rod is _____

- a) Cast Iron b) Rubber
- c) Copper d) Aluminium

Q.6 The full form of CI stands as

- a) Compression Ignition
- b) Continuous Ignition
- c) Cycle Ignition
- d) None of above

Q.7 Mechanical Efficiency is the ratio of

- a) Brake Power / Indicated Power
- b) Indicated Power / Brake Power
- c) Frictional Power / Brake Power
- d) none

Q.8 The function of ignition coil is

- a) Increase current b) Increase voltage
- c) Decrease current d) Decrease voltage

Q.9 Spark Ignition engine is also known as

- a) Diesel Engine b) Petrol Engine
- c) Gas Engine d) None

Q.10 The Spark ignition has compression ratio of _____

- a) 15:1 b) 20:1
- c) 9:1 d) 4:1

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

Q.11 Write full form of IHP.

Q.12 Write full form of BHP.

Q.13 The working cycle of Petrol engine is _____ cycle.

Q.14 Bore of cylinder is measured in centimeter square. (True/False)

Q.15 Define displacement volume.

Q.16 Flywheel is the part of _____ (Transmission / Engine / Chassis)

Q.17 Compression ratio of Diesel engine is higher than petrol engine. (True/False)

Q.18 Write the function of carburetor.

Q.19 Write full form of IC engine.

Q.20 Expand full form of MPFI.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

Q.21 Classify IC engine on different basis.

Q.22 Write five differences between 2 stroke and 4 stroke engine.

Q.23 Write five advantages of water cooling system.
