

180763/120763/030763

Time : 3Hrs.

M.M. : 100

Note: Multiple choice questions. All questions are compulsory (10x1=10)

a) Estimate

b) Costing

d) Expenditure

a) Revised estimate

b) Supplementary estimate

c) Supplementary and revised estimate

d) Annual repair estimate

a) Estimate

a) Estimate

b) Costing

c) Valuation

d) Expenditure

a) Item rate estimate

b) Per unit base estimate

c) Plinth areas base estimate

d) All of these

a) Quintal

a) Quintal

b) Cubic metre

c) Numbers

d) Kilogram

a) 400 Nos

b) 500 Nos

c) 550Nos

d) 530Nos

- Q.7 Percentage of the total cost of _____ has been provided as the water charge in the analysis of rate as per provision made in standard analysis rate of rate.
- a) Travelling expensive b) Handling of material
c) Material and Labour d) Both (a) & (b)
- Q.8 Tendered percentage rate above the notified rate is called _____
- a) Retention money b) Premium
c) Earnest money d) Both (a) & (b)
- Q.9 A person who brings the idea of owner expressed in form of drawing by the architect, into reality is known.
- a) Contractor b) Architect
c) Engineer d) Both (b) & (c)
- Q.10 The value of a property or its services calculated on the prevailing market rate to replace the same
- a) Replacement value b) Rate able value
c) Potential value d) Distress value

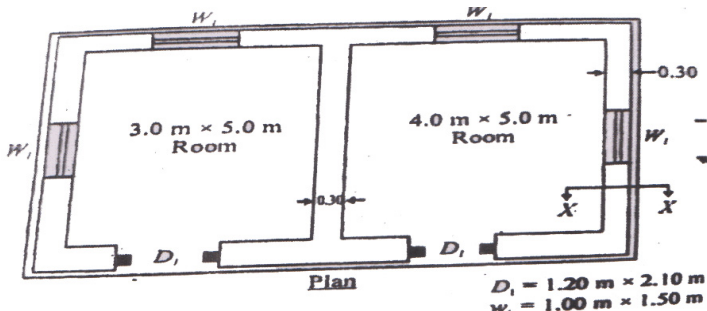

SECTION-B

- Note:** Objective type questions (select the appropriate option). All questions are compulsory. (10x1=10)
- Q.11 For brick edging by road side the units of measurement is _____ and units of payment is ____ (m & per m / m² & Per m²)
- Q.12 For reinforced brick works the units of measurement is _____ and units of payment is ____ (Cum & per Cum / Sqm & Per sqm)
- Q.13 The value of the property entered in the register of local authorities, for ascertaining the property taxes etc. to be recovered from the owner is known as _____ (Market value / Assessed value)
- Q.14 For the analysis of rates the _____ % of cost of material and labour together is added as water charger. (0.5% / 1.5%)
- Q.15 The horizontal structural member used in buildings to provide the opening in walls for doors or windows in known as _____ (Lintels / Gable band)
- Q.16 Write the full form of CSR used for preparation of Estimates.
- Q.17 Define the term "Cubic Content Estimate".
- Q.18 Define the term "Earnest money".
- Q.19 Define the term "Two cover bids".
- Q.20 Define the term "Contingencies".

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Write down the rules for measurement for steel work and wood work in buildings as per BIS-1200.
- Q.22 Describe the procedure of estimation of quantities using Long wall and Short wall method.

- Q.23 Estimate the quantity of 1st class bricks required in superstructure for the given plan (fig-1) of a house.
- Q.24 Estimate the quantity of RCC is slab for the given plan (Fig-1) of a house.
- Q.25 Estimate the quantity of internal plaster of walls for the given plan (fig 1) of a house.
- Q.26 Calculate the quantities of materials required for RCC is slab (fig 1) having proportion of materials as 1:1.5:3.
- Q.27 Find the quantities of materials for, 10 cum of R.C.C. with 1:1:2 proportions.
- Q.28 Write the steps involved in the analysis of rates.
- Q.29 Prepare detailed analysis of rate for 1st class bricks (1 Brick thick wall) laid in cement motor 1:6 in super structure upto height 3.1 m having a door (1.2mx2.1m) and a window (1.8m x1.2m) and hall size is 7mx4m Adopt the present market rates,
- Q.30 Prepare detailed analysis or rate for internal and External Painting for a hall of size of size 7mx4m having a door (1.2m x 2.1m) and a window (1.8m x 1.2m) with 3.0m height above FFL of Plinth level. Assume any missing data.

- Q.31 Write the differences between "Security Deposit" and "Retention Money".
- Q.32 Write the specification for RCC work.
- Q.33 Prepare the tender document for "Earth Work in Excavation".
- Q.34 Describe the significance of the term "Depreciation" used in valuation of civil structures.
- Q.35 Enlist the various factors affecting the valuation of a property.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Write the procedure of preparation of "Detailed and Abstract Estimate for 10 user Septic Tank".
- Q.37 Reduced levels of grounds along the centre line of a proposed road from chainage 6 to chainage 10 are given below. The foundation level at the 6th chainage is 106.00 and the road is in downwad gradient of 1 in 100 up to the chainage 10. Formation width of road is 10m and side slope of banking are 2:1 (H:V) Length of the chainage is 30m. Estimate the quantity of earthwork and prepare the abstract of estimated cost at the rate of Rs. 315.00% Cum.

Chainage	6	7	8	9	10
RL of Ground	104.05	104.70	104.10	104.45	104.15

- Q.38 The rate of the construction materials i.e. Cement bag, Vitrified tile (600x600x10mm) Bricks (1st Class) and steel (8mm dia) for their respective required quantities i.e. 50 bags, 975 Nos., 53000 Nos. and 532 kg quoted by the firms B,C,A and D are as follows: Rs. 300 Rs. 310, Rs 297 and Rs. 299 respectively for cement (Per bag); Rs. 512, Rs 601, Rs. 511 and Rs. 575 respectively for tile (per tile); Rs 5621, Rs 5759, Rs. 5612 and RS 5635 Respectively for bricks (Per 1000 Nos of bricks): Rs 59, Rs 58.93, Rs 58.39 and Rs 59.95 respectively for steel (per kg) Prepare the comparative statement for this, calculate the total cost of the construction material and also find which firm will get the order for the supply of materials.
