

- Q.26 List any four benefits of modular design.
- Q.27 Compare object oriented and function oriented design.
- Q.28 Explain ERD with examples.
- Q.29 What is requirement analyses?
- Q.30 Explain features of good software design.
- Q.31 Distinguished between verification and validation.
- Q.32 Write a short note on white box testing.
- Q.33 Write difference between programmes and software product.
- Q.34 Write some basic components of SRS.
- Q.35 What is planning? Explain various activities involved during project planning.

SECTION-D

- Note:** Long answer type questions. Attempt any two questions out of three questions. (2x10=20)
- Q.36 Explain waterfall model in detail with its limitation and benefits
- Q.37 Write a short note on
- Integration testing
 - Cocomo Model
- Q.38 Briefly explain the various factors which effects the total costs of project development.

5th Sem / Comp., IT Sub : Software Engineering

Time : 3Hrs. M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 The word which describes the importance of software design is ?
- Complexity
 - Quality
 - Efficiency
 - Accuracy
- Q.2 What does a data store symbol is the Data Flow Diagram Signify?
- Logical File
 - Physical File
 - Data Structure
 - All of the above
- Q.3 Which phase comes first in SDLC?
- Testing
 - Design
 - Implementation
 - Planning
- Q.4 Actual programming of software code is done during the _____ step in the SDLC.
- Maintenance & Evaluation
 - Design
 - Analysis
 - Development & Documentation

(1) 180855/170855/
120855/030855

Q.5 We generally use the _____ for software Maintenance.

- a) Integration testing b) Unit testing
- c) System testing d) Regression testing

Q.6 Spiral Model was proposed by

- a) Barry Boehm b) Royce
- c) IBM d) Pressman

Q.7 What is the primary focus of software maintenance?

- a) Adding new features
- b) Debugging
- c) Enhancing the existing features
- d) All of the above

Q.8 In the context of software metrics, what does LOC stand for?

- a) Line of Characters b) Length of Code
- c) Line of code d) Logic of code

Q.9 Which phase of SDLC involves determining system requirements?

- a) Planning b) Analysis
- c) Design d) Implementation

Q.10 What is the main disadvantage of the waterfall model?

- a) High flexibility
- b) Difficulty in accommodating changes
- c) Emphasis on user involvement
- d) Rapid development pace

(2) 180855/170855/
120855/030855

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

Q.11 SRS stands for _____.

Q.12 Name one cost estimation method used in software engineering.

Q.13 Write name of two types of maintenance.

Q.14 What is closed system.

Q.15 Expand sdlc.

Q.16 _____ model is chosen if the development team has less experience.

Q.17 What is Unit Testing?

Q.18 Define the term coding.

Q.19 The degree of interdependence between two modules is called _____.

Q.20 Write one purpose of Documentation.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

Q.21 Write difference between open and closed system.

Q.22 What are the disadvantages of LOC.

Q.23 Explain prototype Model.

Q.24 Explain the responsibility of software project manager.

Q.25 Why we use decision table.
