

- Q.5 Which of these is a major reason to include fats in our diet?
- To provide quick sugar
 - To provide energy
 - To hydrate the body
 - To build muscle only
- Q.6 What do fats add to foods like fried snacks and cakes?
- Only saltiness
 - Flavor and texture
 - Bitterness
 - Water content
- Q.7 From which plant part is coconut oil extracted?
- Leaves
 - Fruit/Nut
 - Stem
 - Roots
- Q.8 Which process is used to extract oil from seeds by applying pressure?
- Pressing
 - Bleaching
 - Deodorizing
 - Refining
- Q.9 Which of the following comes from an animal source?
- Sunflower oil
 - Mustard oil
 - Fish oil
 - Olive oil
- Q.10 Adding vitamins to oil to make it healthier is called:
- Cleaning
 - Enrichment
 - Pressing
 - Extraction

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Hydrogenation makes liquid oils more solid by adding oxygen to unsaturated fatty acids. (True / False)

- Q.12 Which function of fat allows oil and water to stay mixed in mayonnaise?
- Q.13 Fatty acid with no double bonds is known as _____.
- Q.14 The process of _____ is usually carried out under high vacuum and high temperature.
- Q.15 The temperature at which a fat changes from a solid to liquid state is called its _____ point.
- Q.16 Neutralization is the refining step used specifically to remove free fatty acids from crude oil. (True / False)
- Q.17 Fractionation is used to separate oil into different components based on their melting points. (True / False)
- Q.18 Olive oil is generally extracted from the seed of the fruit. (True / False)
- Q.19 Solvent extraction is more efficient than mechanical pressing for seeds with low oil content. (True / False)
- Q.20 The _____ value is used to determine the degree of unsaturation in a fat or oil.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Define oils and fats. List their major sources and describe their general composition and physico-chemical properties?
- Q.22 Explain the nutritional importance of oils and fats in the human diet?
- Q.23 Write a difference between MUFA and PUFA?
- Q.24 Describe the pressing methods of oil extraction, mentioning the types of equipment used like ghani or screw presses?
