**5th Sem / Mechanical Engg. Prod, T&D, CNC, CAD/CAM,
Found & Forg., Mech. Engg. (Fabrication Tech.) Mechanical
Engg. (CAD/CAM Design & Robotics)
Sub : Workshop Tech. – III**

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

Q.1 Milling cutter os a (CO2)

- a) Single point Cutting tool
- b) Multi point cutting tool
- c) Single bit cutting tool
- d) None of the above

Q.2 Which of the following is not a gear finishing process. (CO6)

- a) Lapping
- b) Gear shaving
- c) Gear hobbing
- d) Gear grinding

Q.3 Grinding wheel is specified as C 8 K 5 B 1 7” Grain size of a wheel will be (CO4)

- a) Coarse
- b) Medium
- c) Fine
- d) Very fin

Q.4 In mechanical machining, material is removed by _____. (CO1)

- a) Erosion
- b) Corrosion
- c) Abrasion
- d) Vaporization

(1)

181753/171753/
121753/031753

- Q.5 Honing is used for finishing (CO9)
- a) External cylindrical surface
 - b) Internal cylindrical surface
 - c) Both a and b
 - d) None of the above
- Q.6 The tool used in electro-chemical machining acts as (CO4)
- a) Anode
 - b) Cathode
 - c) Any of above
 - d) None of the above
- Q.7 In a vertical milling machine the spindle axis is (CO1)
- a) Horizontal
 - b) Vertical
 - c) Inclined
 - d) None of the above
- Q.8 _____ Operation is the process of improving cutting action of a grinding wheel. (CO3)
- a) Facing
 - b) Dressing
 - c) Truing
 - d) None of these
- Q.9 Ultrasonic machining is based upon. (CO7)
- a) Uniform machining
 - b) Uniform grinding
 - c) Uniform heating
 - d) Vibrational waves of high frequency
- Q.10 Which machine needs jet of high temperature ionized gas? (Co7)
- a) EBM
 - b) LBM
 - c) EDM
 - d) PAM

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 What is ideal surface. (CO9)
Q.12 What is descaling. (CO8)
Q.13 The spindle in a horizontal milling machine is (vertical / horizontal) (CO1)
Q.14 A dividing head is also known as _____. (CO1)
Q.15 Define module. (CO2)
Q.16 Name different types of hobbling. (CO2)
Q.17 What is Module. (CO7)
Q.18 What is fillet. (CO6)
Q.19 The full form of USM is _____. (CO4)
Q.20 Anodizing coating is generally used for _____ (Aluminum / copper) (CO5)

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Draw neat sketch of Knee and column type milling machine. (CO2)
Q.22 Name different types of milling cutters. (CO5)
Q.23 Define Gear. What are its types? Explain them (CO6)
Q.24 Describe the process 'Gear Shaping'. (CO6)
Q.25 How is grinding wheel selected? (CO3)

- Q.26 What is the function of abrasives in a grinding wheel. Name any two types of abrasives used in grinding wheels. (CO4)
- Q.27 Explain electroplating with help of neat sketch. (CO7)
- Q.28 Write the applications of ultrasonic machining. (Co7)
- Q.29 What is galvanizing. Explain in short. (CO8)
- Q.30 Give a few applications of metal spraying processes. (CO8)
- Q.31 Explain different types of honing process. (CO9)
- Q.32 What is lapping process? Give types of lapping operations. (CO9)
- Q.33 What is the polishing and write the purpose of polishing. (CO9)
- Q.34 Explain mounting of grinding wheel. (CO4)
- Q.35 Write a short note on buffing process. (CO9)

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Explain classification of milling machine with neat sketch. (CO2)
- Q.37 Explain centre less grinding and cylindrical grinding in detail. (CO4)
- Q.38 Explain the principle of USM with neat sketch and write the four advantages & disadvantages. (CO7)
