

Q.22 Draw process flow chart of cotton spinning system

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Differentiate between woven and knitted fabrics.

Q.24 Explain the methods of production of nylon along with its important physical and chemical properties.

Q.25 Explain the process flow of woollen system of yarn manufacture in detail.

Roll No.

182513

1st Year / Textile Design

Subject : Textile Processes

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The delivered material of carding is

a) Sliver b) Roving

c) Yarn d) Lap

Q.2 Moisture regain of polyester fibre is

a) 0.4% b) 8%

c) 11% d) 24%

Q.3 Churning is a process done in the manufacturing process of

a) Jute b) Viscose

c) Acrylic d) wool

- Q.4 The yarn is supplied in the form of cone or cheese in
- a) Warp knitting b) Weft knitting
- c) Both a & b d) None
- Q.5 Vertical row of loops in knitted fabrics structure is known as
- a) Wale b) Warp
- c) Course d) Weft
- Q.6 Which of the following fiber resembles wool
- a) Acrylic b) Viscose
- c) Polyester d) None

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define sectional warping.
- Q.8 Why combing is done?
- Q.9 Knitting is the process of _____ of loops of yarn.

- Q.10 Define weaving.
- Q.11 The yarn is fed warp wise in case of warp knitting (True/False)
- Q.12 Viscose is an example of regenerated fiber (True/False)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Write the objectives of a ring frame machine
- Q.14 Describe any three uses of Polypropylene fibre
- Q.15 What are the applications of weft knitting?
- Q.16 Differentiate between woolen and worsted yarns
- Q.17 List the objectives of warping process.
- Q.18 Describe primary and secondary motions of weaving.
- Q.19 Describe the manufacturing process of polyester fiber.
