

- Q.25 Compare woven fabrics with knitted fabrics. (Five points only)
- Q.26 Write characteristics of interlock knit structure.
- Q.27 Discuss knitting elements in brief.
- Q.28 Construct the figure of 1x1 rib structure.
- Q.29 Explain the methods of ornamentation of plain knit fabrics.
- Q.30 Write characteristic of interlock knit structure.
- Q.31 Construct the diagrams with names of different parts of spring beard needle.
- Q.32 Write the characteristics of a single jersey structure.
- Q.33 Explain the merits and demerits of a knitted fabrics?
- Q.34 What do you mean by 'face and back loop stitch'.
- Q.35 Write down the salient features of flat bed knitting machines.

#### SECTION-D

**Note:** Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Explain the knitting cycle on a tricot machine with neat and clean diagram.
- Q.37 Explain weft-knit fabric defects in single jersey.
- Q.38 Explain the cycle of knitting operation for rib-knit fabrics.

#### SECTION-A

**Note:** Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 \_\_\_\_\_ needle require presser to close the hook  
a) Latch needle                      b) Compound needle  
c) Beard needle                      d) None
- Q.2 When loops are produced course wise then it is known as  
a) Warp Knitting                      b) Weft Knitting  
c) Course Knitting                      d) None
- Q.3 The most commonly used knitting needle for weft knitting is  
a) Latch Needle                      b) Compound Needle  
c) Beard Needle                      d) All of the above
- Q.4 Warp beam is used as a supply package in \_\_\_\_\_ knitting.  
a) Weft                                      b) Warp  
c) Beam                                      d) None

Q.5 Knitting is the process of \_\_\_\_\_ of loops of yarn.

- a) Interlacement      b) Intermeshing
- c) Entanglement      d) None

Q.6 Sinker is used to support the fabric in

- a) Knitting      b) Weaving
- c) Spinning      d) None

Q.7 Beard is a used to \_\_\_\_\_ the tip of needle

- a) Open      b) Close
- c) Both 'a' and 'b'      d) None

Q.8 Rib fabric has a property of stretch ability in \_\_\_\_\_ direction.

- a) Length wise      b) Width wise
- c) Both 'a' and 'b'      d) None of the above

Q.9 Rib knit fabric is more extensible in \_\_\_\_\_ direction.

- a) Length wise      b) Width wise
- c) Both 'a' and 'b'      d) None

Q.10 Yarn preparation is not required for which type of knitting

- a) Warp knitting      b) Weft Knitting
- c) Both      d) None

## SECTION-B

**Note:** Objective type questions. All questions are compulsory. (10x1=10)

Q.11 The needles knits \_\_\_\_\_ in weft knitting.

Q.12 Write one use of rib knit structure.

Q.13 Name a double jersey weft knit structure.

Q.14 Sinker loop is a loop which \_\_\_\_\_ two adjacent needle loops.

Q.15 Name two parts of latch needles.

Q.16 Define warp knitting.

Q.17 What is a press-off?

Q.18 What is an open lap?

Q.19 Tell the function of the needle.

Q.20 Write one defect of knitting.

## SECTION-C

**Note:** Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

Q.21 What are the advantages of spring beard needle?

Q.22 Illustrate knit, float and tuck stitches with neat and clean diagrams.

Q.23 Explain in brief the knitting action of compound needle with diagram.

Q.24 Explain the methods of ornamentation of plain knit fabrics.
