

- Q.29 What precautions should be taken for handling dyes & chemicals.
- Q.30 Discuss various types of records to be maintained for man and machine in process house.
- Q.31 Write a note on Need and scope of suitable ventilation and lightening system in a process house.
- Q.32 What characteristics of the effluent are considered before discharging from process house?
- Q.33 Discuss any two methods of effluent treatment.
- Q.34 Discuss any two methods of disposal of dye house waste.
- Q.35 Write a short note on process planning and process sheet.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Explain various method of minimizing steam and water consumption?
- Q.37 Discuss the objectives and importance of maintenance and also describe the various types of maintenance procedure with their advantages.
- Q.38 Write short note on following :
- Role of state pollution board
 - Recovery of chemical from waste water

No. of Printed Pages : 4 182661/122661/032661
Roll No.

6th Sem / Textile Processing, Text Chem.
Sub : Process House Management/ Pro. HP & Org.

Time : 3Hrs. M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 _____ department needs more fire safety measures.
- Singeing
 - Bleaching
 - Mercerisation
 - None of these
- Q.2 In C.O.D., C stands for
- Colour
 - Chemistry
 - Chemical
 - None of these
- Q.3 Pollutants from a process house are treated in _____.
- ETP
 - Starch
 - BOD
 - None of these
- Q.4 Record keeping is done regarding
- Men
 - Material
 - Machine
 - All of them
- Q.5 We can recover caustic for reuse by _____.
- CRP
 - ETP
 - BOD
 - None of these

(1) 182661/122661/032661

- Q.6 Types of plant lay out is/are
 a) Process b) Combination
 c) Product d) All of these
- Q.7 We must avoid _____ in a process house.
 a) Accidents b) Ventilation
 c) Lightening d) None of these
- Q.8 HR department is responsible for _____.
 a) Marketing
 b) Training and placement
 c) production
 d) None of these
- Q.9 Banned dyes / chemicals contain ____ group
 a) Azo b) Chloro
 c) A & B d) None of these
- Q.10 _____ department in dye house is responsible for repair of machine?
 a) Production b) Laboratory
 c) Administrative d) Maintenance

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Define maintenance.
 Q.12 What is need of lightening?

(2) 182661/122661/032661

- Q.13 Define Eco-Friendly textiles?
 Q.14 _____ is the full form of TDS.
 Q.15 What is the role of pollution board?
 Q.16 What is the full form of ETP.
 Q.17 What is the objective of shift in charge?
 Q.18 Name few sources of chemical accidents.
 Q.19 What is BOD.
 Q.20 Define inventory control.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 List importance of material handling in process house.
 Q.22 Write down various method of minimizing water consumption.
 Q.23 Write down duties & responsibilities of shift supervisor.
 Q.24 Write down the importance of material handling.
 Q.25 Write down different types of plant layout.
 Q.26 What is the significance of process control in chemical processing?
 Q.27 Write a note on maintenance procedures and advantages?
 Q.28 Discuss the factor affecting the plant layout.
