

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 How are special flight permits issued?
- Q.22 Why are Aircraft Rules important?
- Q.23 What is Quality Control in Maintenance?
- Q.24 Describe duplicate inspection of control?
- Q.25 What is C.A.R 21 and 145?
- Q.26 What is the procedure for endorsement of AME License?
- Q.27 Name all maintenance checks.
- Q.28 What is the role Pitot Static Tube?
- Q.29 Explain a technical log book and general log book?
- Q.30 Where the static discharge ports and fitted on aircrafts?
- Q.31 Describe the role of equipment used in Aircraft Maintenance.
- Q.32 What are the various types of Advisory Circulars?
- Q.33 What is the procedure for endorsement of AME License?
- Q.34 How are aircraft rules used for the safety of the aircraft?
- Q.35 What is a general log work?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Describe all types of certificates issued by DGCA.
- Q.37 What is a log book? Where are they used? Describe maintenance of all instruments.
- Q.38 Explain the requirement of storage, quality control, checks and distribution.

 - Suffer major/substantial damage (require extensive repair of major components)
 - All of the above.
- Q.7 The movement area of an airfield, the adjacent lands and buildings or the parts of them with controlled access is called:
- Terminal
 - Maneuvering area
 - Aeronautical part
 - Security program
- Q.8 Airworthiness directive is a document:
- Issued or adopted by DGCA
 - It mandates the action to be performed on an aircraft to restore as acceptable level of safety and as A
 - Issued or adopted by FAA
 - It does not mandate as in B

(2)

187746/147746

- Q.9 Also called "Visual Approach" can be performed:
- During IFR flights, if there is permanent site on the movement area and the underlying ground.
 - During IFR flights, if the cloud base is 1000ft more than the appropriate DA or MDA for that procedure
 - As in above, but in addition there should be a visibility of 5.5 km or more
 - During IFR and VFR flight in VMC;
- Q.10 In the cockpit of a transport airplane, at least one manual fire-extinguisher must be conveniently located containing:
- Halon
 - Power
 - Special fluids
 - Water

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 What do you mean by Air worthiness?
- Q.12 What is the role of Quality control in Aircraft?
- Q.13 How is maintenance of glider done?
- Q.14 What is the main task of AME?
- Q.15 What is the difference between airworthiness and air safety?
- Q.16 Mention one important flying rule.
- Q.17 What is the full form of DCCA?
- Q.18 What is aging aircraft?
- Q.19 What is the need for certificate for balloons?
- Q.20 What is the role of flight manual?
