

SECTION-D

Note: Long answer type questions. Attempt any one questions out of two questions. (1x10=10)

- Q.19 What is Surface Mount Technology? What are the advantages of surface mount technology? What is the difference between through-hole and surface mount technology?
- Q.20 What are surface mount technology errors, their causes and their solutions?

No. of Printed Pages : 4

188563

Roll No.

Level-5, 2nd Sem/ DVOC (Medical Imaging Tech.)
Subject : Soldering & De-Soldering components & Emergency Actions

Time : 2 Hrs.

M.M. : 50

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 SMD capacitor with mark 225 on it has the capacitance value of _____.
- Q.2 DIP stands for
- a) Direct in-line package
 - b) Door in-line package
 - c) Dual in-line package
 - d) Direct indirect package
- Q.3 Name a typical solvent used for cleaning of Electronic assemblies:
- a) Isopropyl Alcohol b) Petrol
 - c) Carbonated Water d) Liquid Nitrogen

Q.4 How are SMD components in bulk mounted on PCB?

- a) Using hot air blower
- b) Using soldering Iron
- c) Using wave soldering machine
- d) Using soldering pot

Q.5 SMD diodes are _____ (Unidirectional / Bidirectional) conductive electronic components.

Q.6 Under the typical (EAP), the employer may assign some employees to _____

- a) Fight all Fire, No matter How Big they are
- b) Attempt Rescue of Trapped Employees
- c) Aggressively Respond to Uncontrollable Releases of Hazardous Substances
- d) Extinguish Small Fires that are controllable

Q.7 R15 on SMD resistor indicates resistance value _____.

Q.8 What is the use of crimping tool?

Q.9 What are medical services during emergency.

Q.10 PPE stands for _____.

SECTION-B

Note: Short Answer Questions Attempt any six questions out of eight questions. (6x5=30)

Q.11 Define passive SMD components. Write the examples of passive SMD components.

Q.12 Write the basic tools and their setup for SMD de-soldering station.

Q.13 What are the general tips for the consideration of temperature for solder iron tip?

Q.14 What are the general precautions during the soldering of SMD Components?

Q.15 Explain, why a Fire Prevention Plan (FPP) is necessary in work area?

Q.16 What is preparedness Plan? Write the benefits of preparedness plan.

Q.17 Define Emergency Exit. Explain the primary and secondary evacuation routes.

Q.18 Write short note on Medical Services requirements.
