

Q.21 Explain the different types of alternate fuels used in IC engine? (CO3)

Q.22 What do you understand by overhauling? (CO5)

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 What are different types of tests for testing of an IC engine? Briefly explain any one of them. (CO5)

Q.24 Explain the working of different components of fuel system in diesel engine along with diagram. (CO1)

Q.25 Describe the various operations of an Otto cycle in detail. (CO2)

No. of Printed Pages : 4

Roll No.

220132

3rd Sem / Agriculture

Subject : IC Engine

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The bore to stroke ratio for tractor engine generally taken as (CO1)

- | | |
|---------|---------|
| a) 1.00 | b) 1.25 |
| c) 1.45 | d) 1.50 |

Q.2 A thermodynamics process occurring at constant temperature is called (CO2)

- | | |
|---------------|--------------|
| a) Isothermal | b) Isobaric |
| c) Adiabatic | d) Isochoric |

Q.3 The specific gravity of fuel is measured by (CO3)

- | | |
|---------------|----------------|
| a) Hygrometer | b) Thermometer |
| c) Viscometer | d) Hydrometer |

Q.4 In force feed system lubrication system, pump is driven by _____ (CO4)

- a) Crankshaft b) Camshaft
- c) PTO shaft d) Both a and b

Q.5 The Otto cycle is the theoretical cycle of a _____. (CO2)

- a) Petrol engine b) Gas engine
- c) Diesel engine d) All of these

Q.6 The lowest temperature at which fuel ceases to flow _____. (CO3)

- a) Ignition point b) Flash point
- c) Pour point d) Burning scale

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 BS norms stands for _____. (CO5)

Q.8 Piston pin is also called _____. (CO1)

Q.9 The injectors and fuel injection pump are the main components of _____ engine. (CO3)

Q.10 Ignition temperature of IC engines varies _____. (CO1)

Q.11 The function of a distributor in a coil ignition system of IC engines is _____. (CO3)

Q.12 The Motoring test on IC engines is conducted to measure _____. (CO5)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Write a short note on Wankle engine. (CO1)

Q.14 Explain the thermostat valve. Also state its functions. (CO4)

Q.15 What are the necessities of cooling of an IC engine? (CO4)

Q.16 Explain at least four properties of good lubricant. (CO4)

Q.17 Draw P-V diagram of diesel cycle along with its processes. (CO2)

Q.18 How would you classify IC engines based on different parameters? (CO1)

Q.19 What is exhaust smoke analysis? Enlist standard emission norms. (CO5)

Q.20 Describe the types of air cleaners in detail. (CO3)
