

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 What are secondary tillage implements? Describe the constructional details and working principle of Disc harrow. (CO5)

Q.24 a) Describe the functions and use of shaft coupling used in machinery. (CO3)

b) Give the concept of balancing and its types. (CO2)

Q.25 Explain the working principle of Seed - cum-fertilizer drill along with its components. Also explain different types of seed metering mechanisms used in seed drills. (CO6)

3rd Sem / Agriculture

Subject : Farm Machinery & Implements - I

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Which of the following is used for power transmission? (CO1)

- a) Belt drive b) Chain drive
- c) Gear drive d) All of these

Q.2 The machine used for digging holes for tree plantation (CO4)

- a) Hydrodozer b) Scraper
- c) Post hole digger d) Ditcher

Q.3 The coupling used to join the ends of the shafts which are not in an exact alignment (CO3)

- a) Rigid coupling b) Flexible coupling
- c) Flange coupling d) None of these

Q.4 The part of harrow that scraps the soil from concave side of the disc and keeps it clean for effective working (CO4)

- a) Spacer b) Scraper
- c) Clevis d) Gang

Q.5 The process of dropping the seeds in a continuous flow and covering them with soil (CO6)

- a) Dibbling b) Drilling
- c) Broadcasting d) Seeding

Q.6 A method of correcting unwanted inertia forces (CO2)

- a) Vibration b) Balancing
- c) Tension d) Centrifugal force

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Define tilt angle. (CO5)

Q.8 Give the function of subsoiler. (CO5)

Q.9 What is the use of transplanter. (CO6)

Q.10 What is the use of drawbar? (CO4)

(2)

220133

Q.11 Name two types of Belt drive. (CO1)

Q.12 What is the function of wheel hand hoe? (CO4)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Give classification of implements according to hitching. (CO4)

Q.14 How Disc plough is the different from Mouldboard plough? (CO5)

Q.15 What are the harmful effects of vibrations in machines and their remedies. (CO2)

Q.16 What are the different types of pipes joints in farm machinery? (CO3)

Q.17 What is the scope of mechanization? (CO4)

Q.18 What are different types of furrow openers used in seed drills? (CO6)

Q.19 Write down the procedure for calibration of seed drill. (CO6)

Q.20 Describe the working of zero till drill. (CO5)

Q.21 What are the different methods of sowing crops? (CO6)

Q.22 What are different drives for power transmission in machinery? (CO1)

(3)
