

- Q.18 What are the common electrical faults in tractors?
(CO3)
- Q.19 Why is periodic maintenance important for tractors?
(CO4)
- Q.20 What are the major factors affecting tractor selection?
(CO1)
- Q.21 List some safety precautions to be followed while operating a tractor.
(CO4)
- Q.22 What are the different types of steering gearboxes used in tractors?
(CO2)

SECTION-D

- Note:** Long answer type questions. Attempt any two questions out of three questions. (2x8=16)
- Q.23 Discuss different types of hydraulic control systems used in tractors. How do position control, draft control, and mix control work?
(CO2)
- Q.24 Discuss the various safety measures that should be taken while operating tractors and the factors influencing the cost of owning and operating.
(CO4)
- Q.25 Describe different types of steering gear systems used in tractors. How does power steering work?
(CO2)

5th Sem / Agriculture Subject : Farm Tractor

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 The classification of tractors is based on: (CO1)
a) Structural design b) Purpose
c) Both (a) and (b) d) None of the above
- Q.2 Which of the following is NOT a component of the power transmission system in tractors? (CO2)
a) Clutch b) Differential
c) Radiator d) Gearbox
- Q.3 Which of the following is a type of braking system used in tractors? (CO2)
a) Mechanical brakes b) Hydraulic brakes
c) Both (a) and (b) d) None of the above

Q.4 Which component is NOT part of a tractor's electrical system? (CO3)

- a) Battery b) Dynamo
- c) Carburetor d) Starter motor

Q.5 Which safety measure is essential while operating a tractor? (CO1)

- a) Using proper gears
- b) Avoiding sharp turns at high speed
- c) Regular maintenance
- d) All of the above

Q.6 What is the purpose of periodic maintenance in tractor? (CO4)

- a) To increase the lifespan of components
- b) To reduce breakdowns
- c) To ensure efficient performance
- d) All of the above

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 The_____ controls and gauges in a tractor help in monitoring its performance. (CO1)

(2)

220153

Q.8 _____ brakes use hydraulic pressure to function. (CO2)

Q.9 The coefficient of traction helps in determining the_____ efficiency of a tractor. (CO2)

Q.10 The steering system in a tractor consists of_____ gearboxes. (CO2)

Q.11 The function of a dynamo in a tractor is to generate_____. (CO3)

Q.12 The cost analysis of a tractor helps in determining the_____. (CO4)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 What are the factors consider for the selection of a tractor. (CO4)

Q.14 What are the main assemblies of a tractor? (CO1)

Q.15 What are the types of gearboxes used in tractors? (CO2)

Q.16 Why is it necessary to change the rear wheel spacing in tractors? (CO2)

Q.17 Explain the importance of traction in tractor performance. (CO1)

(3)
