

No. of Printed Pages : 4
Roll No.

220327

**2nd Sem/
Automobile, Mechanical, Mechanical (Tool & Die Design)
Subject : Workshop Technology – I**

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Which hammer is used for hammering nails in wood
a) Cross peen hammer b) Ball peen hammer
c) Sledge hammer d) Power hammer
- Q.2 The rake angle used for cutting ductile materials is
a) Positive b) Negative
c) Zero d) All of the above
- Q.3 Welding is used for making
a) Permanent Joint b) Temporary Joint
c) Both a & B d) None of these
- Q.4 Lathe centers are provided with standard tapers.
a) British b) Sharpe
c) Morse d) None of these

- Q.5 Cutting fluid acts as
- | | |
|--------------|---------------------|
| a) Lubricant | b) Anti weld agent |
| c) Coolant | d) All of the above |
- Q.6 A drilled hole is enlarged by _____ process.
- | | |
|-------------|------------|
| a) Drilling | b) Boring |
| c) Turning | d) Milling |

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Milling cutter is a single point cutting tool. (True/False)
- Q.8 _____ is the hardest known cutting tool material.
- Q.9 Oxygen cylinder are painted with _____ colour.
- Q.10 Write the full form of M.I.G.
- Q.11 Diamond shape pattern on workpiece is embossed on lathe machine by _____ tool.
- Q.12 Boring is process of making holes. (True/ False)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Name the different types of chisels. Explain the Flat Chisel.

- Q.14 Explain the main parts of a caliper.
- Q.15 Explain feed and depth of cut during metal cutting with neat sketch.
- Q.16 Define tool signature.
- Q.17 Explain gas welding and name the types of flames.
- Q.18 Differentiate between TIG and MIG welding.
- Q.19 Explain any two work holding devices in lathe machine with the help of neat sketch.
- Q.20 Sketch a twist drill and write its nomenclature.
- Q.21 Explain the principle of boring.
- Q.22 Differentiate between cutting fluids and lubricants.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Describe the function of various parts of a center lathe with the help of neat sketch.
- Q.24 Explain the working principle of arc welding. Discuss the various welding defects.
- Q.25 Name different type of reamers and explain any three.
