

- Q.20 Describe anti lock braking system. (CO7)
- Q.21 Explain the working of air bag system. (CO7)
- Q.22 Give any four examples of design for minimum injury in case of accident. (CO7)

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain the principle, construction and working of Telescopic shock absorber with diagram. (CO1)
- Q.24 Write the principle of hydraulic brake system and explain its working with the help of a diagram. (CO3)
- Q.25 Give the constructional details of cross ply & radial ply tyres and compare them. (CO4)

No. of Printed Pages : 4
Roll No.

220352

5th Sem/ Automobile Subject : Chassis, Body & Transmission-II

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Telescopic shock absorber works on the principle of (CO1)
- a) Fluid friction b) Newton's Third Law
- c) Pascal's Law d) Archimedes' Principle
- Q.2 Which types of wheels cannot be used with a tubeless tire? (CO4)
- a) Disc wheel b) Light alloy wheel
- c) Wire wheel d) Composite wheel
- Q.3 When brakes are applied, the kinetic energy of the wheels is converted into : (CO3)
- a) Potential energy b) Heat energy
- c) Chemical energy d) Wind energy

Q.4 Air trapped in Hydraulic Brake system can cause : (CO6)

- a) Spongy Brakes
- b) Reduced braking power
- c) Brake failure
- d) All of these

Q.5 In Air Brakes, power is provided by : (CO3)

- a) Compressed Air
- b) Pressurised fluid
- c) Intake manifold vacuum
- d) Magnetic field

Q.6 Which one of the following is considered as passive safety system? (CO7)

- a) Hill Assist b) Night vision system
- c) Seat belt d) Brake assist

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Write the purpose of helper spring. (CO1)

(2)

220352

Q.8 Define sprung weight. (CO1)

Q.9 Define wheel track. (CO4)

Q.10 Write the principle of braking. (CO3)

Q.11 Define power brake. (CO3)

Q.12 What is the purpose of crash test for automobiles? (CO7)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Enlist the functions of suspension system. (CO1)

Q.14 Compare rigid axle suspension system and independent suspension system. (CO1)

Q.15 Write any four effect of under-inflation in tyres. (CO4)

Q.16 Give any four requirements of a good braking system. (CO3)

Q.17 Describe the characteristics of Brake Fluid. (CO6)

Q.18 Explain the working of air hydraulic brake system. (CO3)

Q.19 Draw the layout of vacuum braking system. (CO3)

(3)
