

2nd Sem/ Ceramic Engg.
Subject : Basics of Ceramic Engg.

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Ceramic raw materials is

- a) Organic b) Inorganic
- c) Volatile d) None of these

Q.2 Planet nearest to the sun is _____.

- a) Mercury b) Earth
- c) Saturn d) None of these

Q.3 Example of Physical agent is:

- a) Wind b) Plant
- c) Tree d) None of these

Q.4 Percentage of silica in acidic rock is

- a) More than 67% b) More than 25%
- c) More than 10% d) None of these

Q.5 Petrology deals with

- a) Formation of rocks
- b) Formation of water
- c) Formation of atmosphere
- d) None of these

Q.6 _____ is the outer most layer of earth

- a) Crust b) Inner core
- c) Outer core d) None of these

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Feldspar in white ware body _____ maturing temperature. (Increase / Decrease)

Q.8 Formula of silicon dioxide is _____. ($\text{SiO}_2 / \text{Al}_2\text{O}_3$)

Q.9 Name one glass industry in India.

Q.10 Formula of lime stone is _____. ($\text{CaCO}_3 / \text{MgCO}_3$)

Q.11 Igneous rocks are formed by cooling and solidification of magma. (True/False)

Q.12 Sedimentary rocks are _____ rocks. (Primary / Secondary)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Define white ware.

Q.14 Example of two heavy clayware body.

Q.15 Discuss age of Earth.

Q.16 Explain wind erosion process.

Q.17 Discuss formation of igneous rocks.

Q.18 Classification of igneous rock based on silica content

Q.19 Define cement.

Q.20 How deposition takes place during geological work of river.

Q.21 Write the composition of glass.

Q.22 Write formation of secondary rocks.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Describe important parts of the Earth.

Q.24 Explain the formation of glacier and geological work of glacier.

Q.25 Explain igneous rocks and formation of igneous rocks.
