

Q.20 What do you mean by pulp washing? Explain briefly.

Q.21 What are different chemical components of wood?
Name them.

Q.22 Define pulping. Name different types of pulping.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 a) Write a short note on lignin.

b) Briefly describe the following terms—

Causticity, Causticizing efficiency

Q.24 Briefly discuss the morphology of fibre.

Q.25 Draw a block diagram to give an overview of paper making process.

No. of Printed Pages : 4

220615

Roll No.

1st Sem / Chem P & P

Subject : Introduction to Pulp & Paper Technology

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Paper can be made from

- a) Hard wood b) soft wood
- c) grass d) all of the above

Q.2 Fibre of _____ wood is longer

- a) soft wood b) hard wood
- c) grass d) none of the above

Q.3 The composition of active alkali is

- a) $\text{NaOH} + 1/2\text{Na}_2\text{S}$ b) Na_2CO_3
- c) $\text{NaOH} + \text{Na}_2\text{S}$ d) NaHCO_3

Q.4 The liquor obtained after causticizing the green liquor is

- a) Blue b) White
- c) Black d) none of the above

Q.5 Hemicellulose are of 2 types namely

- a) Cellulosanes and lignin
- b) polyuronites and lignin
- c) cellulosanes and polyuronites
- d) none of the above

Q.6 What is the central part in the structure of fibre called

- a) primary wall b) secondary wall
- c) lumen d) middle lamella

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Define pulp.

Q.8 Define cellulose unit.

Q.9 Define pulp consistency.

Q.10 Define bath ratio.

Q.11 Define pulp bleaching.

Q.12 Write one property of hard wood fibre,

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 What are various applications of paper industry.

Q.14 Write any 4 factors affecting the location of paper industry.

Q.15 Write the properties of extractives.

Q.16 Write the properties of hemicellulose.

Q.17 Write a short note on displacement ratio.

Q.18 What do you mean by kappa no.?

Q.19 Write a short note on chemical pulping.
