

Q.22 Explain the method of calculating the number of dryers.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain with neat sketch the working principle of multicylinder dryer section used for manufacturing news print.

Q.24 Explain the general practices for paper machine safety and recommended safety reminders.

Q.25 A paper machine is producing 300 tonne/day of paper with 5% moisture content. If consistency at different sections are as follows:

Head box Cy = 1%

After Couch roll = 18%

After press section = 35%

Calculate the amount of water removed at the wire part, press section and water evaporated at the dryer part.

5th Sem / Chemical (Pulp & Paper)

Subject : Paper Making-II

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Units of basis weight is

- | | |
|------------------------------------|-----------------------------------|
| a) $\frac{\text{gm}}{\text{cm}^2}$ | b) $\frac{\text{gm}}{\text{m}^2}$ |
| c) $\frac{\text{kg}}{\text{cm}^2}$ | d) $\frac{\text{kg}}{\text{m}^2}$ |

Q.2 Sweat dryer function is

- | | |
|-------------|-------------|
| a) drying | b) softness |
| c) hardness | d) wetting |

Q.3 What is the consistency after press section.

- | | |
|--------------|---------------|
| a) 10 to 15% | b) 15 to 25 % |
| c) 25 to 30% | d) 30 to 40% |

(1)

220654

- Q.4 Multicylinder dryer sections are arranged in
- a) one tier b) two tier
 - c) three tier d) None of the above
- Q.5 Cast iron is preferred material for dryer cylinder due to
- a) high tensile strength
 - b) low brittleness
 - c) Low cost & good finish
 - d) Easily available
- Q.6 Calenders in a stack consists of rolls of
- a) Fibrous
 - b) Metal
 - c) Mixture of metal & Fibrous
 - d) None

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 What is the function of spring roll?
- Q.8 Define saturated humidity.
- Q.9 Define reason of paper blackening.

- Q.10 What is the function of quadrant scale?
- Q.11 Write the main function of calendering section.
- Q.12 Define drying.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Explain in brief the manufacturing process of carbon less paper.
- Q.14 Explain working principle of super calendering in brief.
- Q.15 Write the advantages of closed hood over open hood system.
- Q.16 Explain the working of rotary cutter.
- Q.17 Explain in brief the working principle of Yankee dryer with neat diagram.
- Q.18 Explain Tithe machine in brief.
- Q.19 Write about evaporation.
- Q.20 Define dryer felt and its advantages & disadvantages.
- Q.21 Explain the manufacturing process of kraft paper in brief.
