6th Sem / Civil engineering
Sub : Green Buildings

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 GRIHA means that _____.

- a) Green Rating for Intergrated Habital Assessment
- b) Green Rating for Information Habital Assessment
- c) Green Rating for Indian Habital Assessment
- d) Green Rating for International Habital Assessment

Q.2 Sustainable Building means that

- a) Green Building
- b) Environmental Building
- c) Both A & B
- d) None of the above

- Q.3 What are the objective of green building?
- a) Waste reduction
 - b) Energy Efficiency
 - c) Improving Air Quality
 - d) All of the above
- Q.4 Which of the following is not a green rating system?
- a) LEED
 - b) GRIHA
 - c) BEE
 - d) LEAD
- Q.5 Which of the following is a sustainable construction material commonly used in green buildings?
- a) Conventional concrete
 - b) Vinyl flooring
 - c) Bamboo flooring
 - d) Single pane windows
- Q.6 Which renewable energy source is commonly integrated into green building systems for power generations?
- a) Coal
 - b) Natural Gas
 - c) Solar
 - d) Diesel

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 What is the full form of LEED?
- Q.8 Write the name of any three building material?

- Q.9 What is the primary goal of green building design?
- Q.10 Define Orientation of green building design?
- Q.11 What is a VOC?
- Q.12 What is the main objective of Rainwater harvesting?

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 What are the benefits, principles of green building.
- Q.14 Write a short note on bamboo and hollow concrete blocks?
- Q.15 Explain the water - efficient fixtures used for kitchens with their advantages?
- Q.16 Write a short note on natural air ventilation mechanism?
- Q.17 Describe any two indoor environment quality Parameters?
- Q.18 Write a short note on Solar Water heating system?
- Q.19 Write a short note on Green Building Rating system?
- Q.20 Define LEED? What are the objectives of LEED?
- Q.21 Write a short note on net-metering system?
- Q.22 Write down any five eco-friendly materials used for green building construction?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Describe in details the components and working of a rooftop rainwater harvesting system with diagram?

Q.24 Explain the site selection and planning of green building?

Q.25 Write a short note on any two

- a) Wind Mills
- b) Orientation
- c) Sun Reflective Paints
