6th Sem/ Civil

Subject : Repair & Maintenance of Civil Infrastructure

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Preventing maintenance of concrete structure enhances.

- a) Serviceability b) Use full life
- c) Durability d) All of the above

Q.2 Cracks are developed in the column

- a) Excessive loading
- b) Excessive loading banding
- c) Eccentric loading
- d) Corrosion of reinforcement

Q.3 _____ maintenance is regular period planned maintenance. Which eliminates break down and outages?

- a) Relative b) Preventive
- c) Corrective d) Operation

- Q.4 Which of the following are basic building material?
- a) Cement
 - b) Wood
 - c) Brick
 - d) All of the mentioned
- Q.5 DPM stands for
- a) Damp proof material
 - b) Damp proof mix
 - c) Damp proof member
 - d) Damp proof membrane
- Q.6 Dampness cause
- a) Efflorescence
 - b) Bleaching of paints
 - c) Crumbling of plaster
 - d) Growth of termites

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Routine maintenance is also known as _____ maintenance.
- Q.8 The main cause of paint deterioration is _____.
- Q.9 Define spalling.
- Q.10 Accumulation of grease and dirt causes _____ of traps.
- Q.11 INP stands for?
- Q.12 Efflorescence is the effect of _____ on bricks.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 What is remedial maintenance? What are the steps involved in the process of remedial maintenance?
- Q.14 What are various factors that affect the durability of concrete?
- Q.15 What are the preliminary investigations related to building deterioration? What are their objectives?
- Q.16 Describe ultrasonic pulse velocity test.
- Q.17 List of least ten typical defects in building.
- Q.18 What are the most commonly used adhesives in repair work?
- Q.19 How preventive maintenance can be implemented during various phases of life of structure?
- Q.20 Write short note on shotcreting and what is caulking?
- Q.21 What are different methods involved in the treatment for replacement of damaged DPC?
- Q.22 Write a short note on epoxy injection? And define rebar primer?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 What is Routine Maintenance? Describe various factors that influence the decision to carry out maintenance.
- Q.24 Describe various environmental factor responsible for deterioration of buildings?
- Q.25 Draw and explain flow chart for systematic investigation of defects in a building.
