3rd Sem / Computer, Computer (For Speech and Hearing Impaired), ECE, ECE(For speech and Hearing Impaired)

Subject : Programming in C

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Program designing mainly deals with:

- a) Writing code b) Logic formulation
- c) Error correction d) Execution

Q.2 Which statement is used to exit from a loop?

- a) continue b) goto
- c) exit d) break

Q.3 Which data structure stores different data types?

- a) Structure b) Array
- c) Pointer d) Function

Q.4 An array elements are always stored in _____ memory locations.

- a) Sequential b) Random
- c) Both (a) and (b) d) None of these

Q.5 Which function reads a string including spaces?

- a) gets b) scanf
- c) puts d) printf

Q.6 Array name represents:

- a) Value b) Constant
- c) Base address d) Variable

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Define algorithm .

Q.8 List one keyword.

Q.9 What is the size of (char) in a 32-bit C compiler?

Q.10 Who is considered the “father” of the programming language?

Q.11 What does a pointer variable store?

Q.12 List one non-linear data type.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Draw and explain the various flowchart symbols.
- Q.14 Explain the difference between a structure and a union in C.
- Q.15 Define recursion. Write a program to find the factorial of a number using recursion.
- Q.16 Write short note on formatted output function.
- Q.17 Write a program to find whether a number is Prime or not.
- Q.18 Differentiate between static memory allocation and dynamic memory allocation.
- Q.19 Explain different data types in 'C'.
- Q.20 What is a structure? How do you initialize its members?
- Q.21 Explain file opening and closing.
- Q.22 Explain pointers with its two applications with example.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain program Development Life cycle in detail.
- Q.24 Define an array. Differentiate between one-dimensional array and multi-dimensional array with examples.
- Q.25 Write a note on
- a) Loops in C
 - b) Strings.
