Computer, Computer, (For Speech & Hearing Impaired)
Subject : Cloud Computing (Common with AI &
ML & A & R)**

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Which of the following are features of cloud computing?

- a) Security
- b) Scalability
- c) Large Network Access
- d) All of the mentioned

Q.2 What does SaaS stand for in cloud computing?

- a) System as a Service
- b) Software as a Service
- c) Services as a System
- d) Solution as a Service

- Q.3 Cloud computing is an abstraction based on the notion of pooling physical resources and presenting them as a _____ resource.
- a) Real
 - b) Virtual
 - c) Cloud
 - d) None of the mentioned
- Q.4 What is the purpose of encryption in cloud security?
- a) To improve application performance
 - b) To protect data from unauthorized access
 - c) To reduce storage costs
 - d) To enhance network speed
- Q.5 Which of the following subject area deals with pay-as-you-go usage model?
- a) Accounting Management
 - b) Compliance
 - c) Data privacy
 - d) All of the mentioned
- Q.6 Storing and accessing data over the internet is called.
- a) cloud
 - b) Virtualization
 - c) Scheduling
 - d) Grid

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Public cloud is most secure. (True/False)

Q.8 PaaS stands for _____.

Q.9 List any one component of SLA.

Q.10 What is name of Amazon cloud?

Q.11 Mention one benefit of cloud storage.

Q.12 What is memory virtualization?

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 What is cloud computing? What are its characteristics?

Q.14 Explain the need of Service Level Management?

Q.15 Explain SaaS with its advantages and disadvantages.

Q.16 Explain the key components of an SLA.

Q.17 Write a note on major cloud service providers.

- Q.18 Differentiate between public cloud and private cloud.
- Q.19 List the various challenges faced by cloud storage management.
- Q.20 Explain SLA life cycle along with suitable block diagram.
- Q.21 Define hypervisors with its types.
- Q.22 Write advantages and disadvantages of Hybrid cloud model.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Describe cloud deployment models.
- Q.24 Explain virtualization in detail along with its types.
- Q.25 Write short note on any two :
- a) SAN
 - b) Infrastructure security
