**6th Sem/
Computer, Computer (For Speech & Hearing Impaired)
Subject : Network Security**

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The process of verifying the identity of a user is called

- a) Verification b) Validation
- c) Authentication d) Identification

Q.2 Full form of PGP is

- a) Pretty Good Privacy
- b) Protocol Good Password
- c) Port Good Privacy
- d) Pretty Good Password

Q.3 Which one of the following is a legal form of hacking?

- a) Cracking
- b) Non-Ethical hacking
- c) Ethical hacking
- d) Hacktivism

- Q.4 Which of the following is a method that antivirus software uses to detect malware?
- a) Signature-based detection
 - b) Behaviour-based detection
 - c) Heuristic-based detection
 - d) All of the above
- Q.5 Which of the following describes a Host-Based IDS (HIDS)?
- a) An IDS that monitors network traffic across multiple systems.
 - b) An IDS that is installed on a specific host and monitors activity on that host.
 - c) An IDS that operates purely at the network level
 - d) An IDS that only detects physical intrusions.
- Q.6 What does VPN stand for?
- a) Virtual Private Network
 - b) Virtual Protected Network
 - c) Very Private Network
 - d) Virtual Public Network

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 The hackers with interest in telephone and telephone networks are called as _____.

- Q.8 SSL stands for _____.
- Q.9 Define cipher text
- Q.10 Define worm.
- Q.11 What is a firewall.
- Q.12 Write the names of two types of disaster.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 What is the need for securing a network?
- Q.14 Differentiate between active attack and passive attack.
- Q.15 Write a short note on Digital Signatures.
- Q.16 Differentiate between symmetric and asymmetric key cryptography.
- Q.17 What is a Zombie and how it is detected?
- Q.18 What are the different preventive measures for virus?
- Q.19 Explain the counter measures of Intrusion Detection System.
- Q.20 What are the limitations of a firewall?
- Q.21 What is a VPN? How does it work?
- Q.22 What is a single point of failure? How it contributes to network disaster?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 What is a virus? What are the various types of viruses? Explain in detail.

Q.24 What are the different firewall configurations? Explain in detail.

Q.25 Write short notes on :

- a) Trojan Horse
- b) Encryption and Decryption
