

Q.17 Explain 'can immersion' and 'surface cooler' method of milk cooling?

Q.18 How candling and grading of eggs are performed?

Q.19 Define milk? Explain the process of milk collection?

Q.20 Draw processing flow chart of handling, transportation and storage of fruits and vegetables?

Q.21 Write a brief note on mycotoxins?

Q.22 Define grains? Explain the process of preparation of grains for storage?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Enlist various unit operations of post harvest handling and explain any 4 of them in detail?

Q.24 Enlist various types of storage structure of grains? Explain improved type storage structure in detail?

Q.25 What are the various post harvest changes occur in foods? Explain briefly.

No. of Printed Pages : 4

221121

Roll No.

2nd Sem / Food Technology

Subject : Handling, Transportation and Storage of Foods

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The causes of post harvest losses are:

- a) Physiological deterioration
- b) Mechanical damage
- c) Diseases, insect and pest
- d) All of the above

Q.2 Screw conveyor is generally used to move grains horizontal but is can also be used up to an angle of

- a) 15°
- b) 30°
- c) 45°
- d) 90°

Q.3 Abattoir is another name for a _____, the facility where animals are killed and processed into meat products

- a) Grocery Store b) Farm
- c) Slaughter house d) Library
