

Q.20 Describe the processing steps and biological changes in beer making with the help of a process flow diagram.

Q.21 Draw the schematic diagram of the production process of Baker's Yeast.

Q.22 Explain the mechanism of vinegar production?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 How wine is produced? Describe with detailed flow diagram?

Q.24 What is a fermentor? Explain different parts of fermentor with suitable diagram?

Q.25 What do you mean by "Single Cell Protein". Discuss the production of SCP and its advantages as well as disadvantages?

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The term pH stands for

- a) Presence of Hydrogen
- b) Positive Hydrogen
- c) Potential of Hydrogen
- d) Power of Hydrogen

Q.2 The agitator is required to _____

- a) Provide Air
- b) Mixing objectives
- c) Purifying the product
- d) Sterilize the media

Q.3 Which of the following is not the component of aeration and agitation system?

- a) Impeller
- b) Baffles

(1)

221135

c) Stirrer gland and bearing

d) Thermometer

Q.4 Addition of Hops in beer is done to

a) Enhance Fermentation

b) Settle the yeast

c) Impart the bitter taste

d) Speedy maturation

Q.5 What is the basic function of the fermentor?

a) To sterilize the medium

b) To recover the product

c) To provide optimum growth conditions to organism and obtain the desired product

d) To purify the product

Q.6 Which of the following material is preferable for the construction of small scale fermentor?

a) Quartz b) Glass

c) Iron steel d) Wood

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Name any two alcoholic non-distilled beverages.

(2)

221135

Q.8 Champagne is native to which country?

Q.9 What is the common name of fermented meat product?

Q.10 Which alcoholic beverage is known as “Burnt Wine”?

Q.11 What is the scientific name of yeast used in commercial bread production?

Q.12 From which grain Miso is prepared?

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Write the advantages and disadvantages of synthetic media.

Q.14 Explain fermentation types on the basis of type of microorganism used.

Q.15 Explain basic functions of bioreactor.

Q.16 Describe the procedure for making sausages.

Q.17 Explain the steps involved in production of curd.

Q.18 Differentiate between distilled and non-distilled beverages.

Q.19 Discuss the production technology of tempeh and its nutritional advantages.
