SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Which of the following is NOT a typical ingredient in extruded snack foods?

- a) Corn flour b) Rice flour
- c) Potato starch d) Whey protein

Q.2 What is the purpose of the die in an extruder.

- a) To cool the product
- b) To shape the product
- c) To add flavor
- d) To increase the moisture content

Q.3 What type of packaging material is often used for snacks to maintain crispness and prevent moisture absorption?

- a) Glass bottles b) Paper bags
- c) Moisture barrier films d) Metal cans

- Q.4 What is the purpose of a pre-conditioner in an extrusion line?
- a) To cool the product
 - b) To separate ingredients
 - c) To add moisture and heat the ingredients before extrusion
 - d) To polish the final product

- Q.5 Which of the following is a critical control point in the extrusion process for ensuring quality?
- a) Screw speed and temperature.
 - b) Raw material storage
 - c) Packaging material selection
 - d) Waste disposal

- Q.6 What role does the screw design play in an extruder?
- a) It only affects the speed of the process
 - b) It influences the pressure, temperature, and mixing of the material
 - c) It has no impact on the final product
 - d) It determines the color of the snack

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 _____ is a process used to extend the shelf life of snacks by removing moisture.

(2)

221154A

- Q.8 To improve the texture of extruded snacks, ingredients like _____ or _____ may be added.
- Q.9 Direct-expanded snacks, like certain breakfast cereals and snacks typically have a _____ texture.
- Q.10 What is the role of conditioning in extrusion process?
- Q.11 Enlist various types of snacks.
- Q.12 _____ and _____ are essential for ensuring food safety and preventing microbial spoilage of extruded snacks.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 What are the effects of extrusion on food products.
- Q.14 What is the importance of snack products in food industry.
- Q.15 Differentiate between frying and baking.
- Q.16 Which type of ingredients is used in snack and extruded products?
- Q.17 What is HACCP and why it is important in snack manufacturing.
- Q.18 Discuss about the history of snack food in India.
- Q.19 Discuss about the innovations in snack packaging.
- Q.20 What is the role of marketing of new snack product?
- Q.21 What are the functions of fats and sugars in snacks?
