

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain the basics of solar energy system. Write any four applications of it. What are the materials used for the manufacturing of solar panel?
- Q.24 Explain the concept of tracking systems in solar plant in detail.
- Q.25 Explain about the safety at the workplace in solar power plant.

No. of Printed Pages : 4

221564C

Roll No.

6th Sem/ Instrumentation & Control Subject : Solar Panel Installation & Maintenance

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 A charge controller in solar panel is used to
- a) Protect against electrical over load, overcharging etc.
 - b) Convert AC to DC.
 - c) Convert DC to AC.
 - d) Charge battery
- Q.2 Which of the following tool is not used for solar panel installment
- a) Inventor
 - b) Battery
 - c) Charge controller
 - d) All of the above
- Q.3 Solar panel is made up of
- a) Silicon
 - b) Cadmium
 - c) Iron
 - d) Wood

- Q.4 ____ are used to minimize the angle of incidence between incoming sunlight and solar panel
- a) Solar inverter b) Solar tracker
- c) Solar panel d) Lead
- Q.5 Solar panel racking is a/an
- a) Electrical equipment
- b) Type of battery
- c) Mechanical equipment
- d) None of the above
- Q.6 Which battery is generally used in solar system?
- a) Dry cell b) Fuel cell
- c) Lead acid battery d) All of the above

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Solar panel converts light into electricity. (T/F)
- Q.8 Write any one electrical equipment used in solar plant.
- Q.9 An averter is solar system converts DC signal into AC signal (T/F)
- Q.10 What is solar tracking?

(2)

221564C

- Q.11 Solar energy is a renewable source of energy. (T/F)
- Q.12 ____ is the mechanical equipment used in solar plant.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Write the use and handing procedure of solar panels.
- Q.14 What are the quality and process standards used in solar plant?
- Q.15 Write a short note on sun light and direction Assessment.
- Q.16 What should be the reporting structure while co-coordinating colleagues at work.
- Q.17 How to handle hazardous materials in solar plant?
- Q.18 What must be the emergency procedures to be followed during fire accidents in solar power plant?
- Q.19 Write two advantages and disadvantage end of solar power plant.
- Q.20 Write a short note on panel mounting and indignation.
- Q.21 What are the significance of series and parallel connections?
- Q.22 Write the maintenance procedure of equipment.
