**5th Sem/
Mechanical Engg., Mechanical (Tool & Die)
Subject : Industrial Engineering**

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 What is the primary objective of time study?
- a) To improve working conditions
 - b) To establish standard time for a job
 - c) To increase workload
 - d) To analyze production cost
- Q.2 Which methods is commonly used in work measurement?
- a) Motion study b) flowchart analysis
 - c) Time study d) Product design
- Q.3 What is the purpose of work sampling?
- a) To measure idle time of workers
 - b) To count production units
 - c) To improve plant layout
 - d) To analyze raw material cost

- Q.4 Which of the following is a factor in plant layout?
- a) Safety of workers b) Space utilization
 - c) Product flow d) All of these
- Q.5 What does a Monte Carlo method help analyze?
- a) Worker behaviour
 - b) Machine efficiency
 - c) Decision-making under uncertainty
 - d) Cost of raw materials
- Q.6 Which of the following is NOT a type of inventory?
- a) Raw materials b) Work in progress
 - c) Finished goods d) Employee payroll

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define work study.
- Q.8 Incentive schemes are designed to reduce employee salaries. (True/False)
- Q.9 Name any two types of plant layouts.
- Q.10 _____ analysis helps in determining the profitability of a business. (Fill in the blank)
- Q.11 What is the primary function of production control?
- Q.12 CPM and PERT are used for project scheduling. (True/False)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Define the significance of standardization in improving productivity.
- Q.14 What are Therbligs and how are they used in motion study?
- Q.15 Discuss the importance of ergonomic design in workplace safety
- Q.16 Write the advantages and disadvantages of various incentive schemes.
- Q.17 What is the function of a facility register in stores management?
- Q.18 Discuss the factors influencing production scheduling in industries.
- Q.19 What are the objectives and functions of inventory control?
- Q.20 Discuss the significance of ABC analysis in stores management.
- Q.21 Describe the concept of function evaluation in value engineering.
- Q.22 How to work measurement techniques help in reducing production costs?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain the role of work measurement in productivity improvement and discuss different techniques used for work measurement.
- Q.24 Describe the different stages of production planning and control with suitable examples.
- Q.25 Discuss the applications and benefits of break-even analysis in business decision making.
