

No. of Printed Pages : 4
Roll No.

221764B

6th Sem/ Mech. Mech (Tool & Die Design)
Sub. : Estimating & Costing in Mechanical Engineering

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 A Written offer in the form of a quotation to work and supply materials is called as _____. (CO7)

- a) Tender b) Budget
- c) Contract d) None of the above

Q.2 From the following what is the purpose of budget (CO7)

- a) To define certain goal
- b) To improve the position of the business
- c) Both A & B
- d) None of the above

Q.3 Which of the following is not a phase of planning? (CO6)

- a) Forecasting b) Designing
- c) Order writing d) Routing

- Q.4 Estimation is done (CO2)
- a) During manufacturing
 - b) Before manufacturing
 - c) After manufacturing
 - d) All of the above
- Q.5 Which one of these is not the cause of idleness of machine (CO5)
- a) Power failure
 - b) Non availability of raw material
 - c) Poor scheduling of machines
 - d) Lack of supervision
- Q.6 _____ is the value of machine, equipment or assets at a particular date. (CO3)
- a) Scrap value
 - b) Book Value
 - c) Salvage value
 - d) Net present value

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define Tapping. (CO1)
- Q.8 What is Capital Investment? (CO3)
- Q.9 Name various components of cost. (CO2)

- Q.10 Define GDP. (CO7)
- Q.11 Define rate of return on investment. (CO2)
- Q.12 What is surface grinding? (CO5)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Differentiate between Estimation and Costing. (CO1)
- Q.14 Write the essential qualities of a cost estimator. (CO2)
- Q.15 Explain and draw ladder of cost. (CO3)
- Q.16 What are overheads? What are their different types? Explain. (CO3)
- Q.17 Write main features of budget. (CO7)
- Q.18 Write the procedure to calculate material cost. (CO4)
- Q.19 Explain the steps involved in estimation of welding cost. (CO6)
- Q.20 Explain the forging losses to be considered while estimating. (CO6)
- Q.21 Differentiate between job costing and process costing. (CO7)

Q.22 What does GDP per capita represent, and how is it calculated. (CO7)

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain different methods of calculating Depreciation. (CO3)

Q.24 Define Gas welding & its techniques. Explain the procedure of estimation of Gas welding cost. (CO6)

Q.25 The market price of a machine is Rs. 60,000 and the distributor is allowed a discount of 20% of the market price. It is found that the selling expenses are 50% of factory cost. The material cost, labour cost and factory overheads are in the ratio of 1:3:2. If the labour cost is Rs. 12,000 determine the profit on each machine. Neglect other overheads. (CO4)
