**1st Sem / DMLT, DMLT
(For Speech and Hearing Impaired)
Subject : Introduction to Hematology**

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Most of the red cells are removed after their life span in?

- a) Macrophages b) The Circulation
- c) Both d) None of these

Q.2 What is the normal pH of Blood?

- a) 5.7 b) 7.4
- c) 6.0 d) None of these

Q.3 Which one is the suitable site for capillary puncture?

- a) Median Cubital Vein
- b) Finger Tip
- c) Both A and B
- d) None of these

- Q.4 The average life span of the red cell is _____
- a) 100 days b) 105 days
c) 90 days d) 120 days
- Q.5 The anticoagulants used for complete blood count is _____
- a) EDTA b) Heparin
c) Both A & B d) None of these
- Q.6 The fixative present in Leishman stain is _____
- a) Methanol b) Ethanol
c) Reticulocytes d) None of these

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Types of leucocytes are _____, _____ and _____
- Q.8 Define Anticoagulant.
- Q.9 What is the normal life span of WBC?
- Q.10 Which natural anticoagulants is found inside human body?
- Q.11 Define leucopoiesis.
- Q.12 Define Blood Smear.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Define Haemoglobin and write its composition.
- Q.14 Draw and explain any four plastic-ware used in Hematology Laboratory.
- Q.15 Write the procedure of Plasma separation.
- Q.16 Draw the diagram RBC and WBC Pipette.
- Q.17 Explain EDTA & Sodium Citrate with mode of action.
- Q.18 Write the materials & equipments required for vein puncture.
- Q.19 Describe Vacutainer system for blood collections.
- Q.20 Write the procedure for preparation of Thin blood film.
- Q.21 Write the various function of blood.
- Q.22 Explain the principle of Leishman stain.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Classify anticoagulants. Briefly discuss calcium chelators used as anticoagulants.

- Q.24 Explain Development stages of Erythrocyte in detail.
- Q.25 Discuss the importance of standard operating procedure (SOP) for the collection and preservation of blood by venous collection method.
