

No. of Printed Pages : 4

221922

Roll No.

**2nd Sem / DMLT, DMLT(For speech and
Hearing Impaired)**

Subject : Clinical Biochemistry

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Factors affecting uric acid levels are:-

- a) body mass, diet & exercise
- b) fanconi syndrome
- c) Leukaemia
- d) haematemesis & hemorrhage

Q.2 Urea is the major end product of _____ metabolism.

- a) protein
- b) carbohydrate
- c) lipid
- d) nucleic acid

Q.3 Synovial fluid is present in body part.

- a) heart
- b) lungs
- c) joints
- d) kidney

Q.4 Total amount of pericardial fluid present in a healthy adult is up to.

- a) 50 ml b) 100 ml
- c) 150 ml d) 200 ml

Q.5 Seminal fluid is used to examine.

- a) body temperature b) Glucose
- c) ova d) Spermatozoa

Q.6 pH of blood is

- a) 5.6 b) 7.4
- c) 8.6 d) 9.2

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Name important amino acids present in urea cycle.

Q.8 What is normal range of blood sugar by age.

Q.9 Define stool.

Q.10 What is importance of Biochemistry.

Q.11 Write down the fractions of blood.

Q.12 Expand GTT.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Write down clinical importance of serum protein.

Q.14 Write short note on glycogenesis and glycogenolysis.

Q.15 Write down collection and preservation of peritoneal fluid.

Q.16 What are anticoagulant and types of it.

Q.17 Write down normal range of urea and uric acid.

Q.18 Write down principal of protein estimation.

Q.19 What is composition of blood.

Q.20 Write down advantage and disadvantage of EDTA

Q.21 How volumetric flask get calibrated.

Q.22 What is clinical significance of urea estimation.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Write down principal, clinical significance and procedure of DAM method.

Q.24 Write the principle, procedure and clinical significance of Henry caraway method.

Q.25 Explain in detail various types of urine sample collected during lab examination and its preservation.
