**2nd Sem / DMLT, DMLT
(For speech and Hearing Impaired)**

Subject : Bacteriology / Clinical Microbiology - II

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Basophilic bacteria are grown in_____

- a) Alkaline media b) Acidic media
- c) Neutral media d) none of these

Q.2 Formaldehyde is a disinfectant agent. It is used in form of-

- a) Liquid form b) Solid form
- c) Both (a) and (b) d) Gasses form

Q.3 Lugol's Iodine is used in-

- a) Z.N Stain b) Gram stain
- c) Stool examination d) None of these

- Q.4 Thickness of gram positive bacteria is-
- a) 20-80 nm b) 8-12 nm
 - c) 6-8 nm d) 8-10 nm
- Q.5 Tuberculosis is caused by -
- a) Salmonella b) Proteus
 - c) Tuberculosis Bacilli d) T. Pallidum
- Q.6 Average size of bacteria length is-
- a) 0.1-1 micrometer b) 1.1-1.5 micrometer
 - c) 0.1-0.15 micrometer d) 0.2-2.0 micrometer

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Expand HIV.
- Q.8 Define Blood.
- Q.9 Which disease is caused by salmonella?
- Q.10 What is the pour size of membrane filtration.
- Q.11 What is Enteric fever.
- Q.12 Define Bacteriology

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Write the laboratory diagnosis of Salmonella.
- Q.14 Write a short note on pseudomonas.
- Q.15 Give the name of paths of transmission of infection.
- Q.16 Explain the direct contact of transmission of disease.
- Q.17 How to prevent Staff from infection causative agents?
- Q.18 Define respiratory tract infection.
- Q.19 What is infection? Explain the sources of infection with examples.
- Q.20 Write down the symptoms of fungal meningitis.
- Q.21 Write a short note on enteric fever.
- Q.22 Explain the morphology of Staphylococci along with its types.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 What is nosocomial infection? Write down the safety precautions and cure for nosocomial infection.

- Q.24 Explain the morphology and cultural characteristics of Pneumococci.
- Q.25 Draw the morphological structure, pathogenicity and lab diagnosis of vibrio cholera.
