

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain the following

- a) Grinding operations and machines
- b) Cutting parameters of grinding machine

Q.24 Enlist the various gear cutting techniques. Explain any two in details.

Q.25 Explain the horizontal jig boring machine with neat sketch.

No. of Printed Pages : 4
Roll No.

222024

2nd Year / Advance Diploma in Tool & Die Making Subject : Workshop Technology - II

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Which of the following can be used for power transmission in intersecting shafts.

- a) Spur Gear b) Helical Gear
- c) Bevel Gear d) None of the listed

Q.2 Which type of machining can be done by milling machine?

- a) Cutting key ways b) Slots and grooves
- c) Gears d) All of the mentioned

Q.3 A pantograph consists of

- a) 4 links b) 6 links
- c) 8 links d) 10 links

Q.4 Which of the following process has the lowest cutting speed?

- a) Slotting b) Lapping
- c) Milling d) Reaming

Q.5 Which of the following is a method of applying a protective zinc coating to steel?

- a) Galvanizing b) Glazing
- c) Hydroforming d) Metal Punching

Q.6 Shot blasting is process of

- a) Process of cleaning moulding sand
- b) Process of cleaning spherical objects only
- c) Process of cleaning castings
- d) Process of supplying blast of hot air to cupola

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Milling uses rotary cutter. (True/False)

Q.8 Bevel gears are used for power transmission in case of _____ shafts.

Q.9 Galvanization is the process of applying a _____ coating to steel.

Q.10 Hard chrome plating is a surface treatment process. (True/False)

Q.11 Honing serves as a _____ finishing process.

Q.12 Define Blackening.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Describe operational principle of metal spraying with its applications.

Q.14 Explain the working principle of Electroplating. Also write its main functions.

Q.15 Describe various steps performed in hard chrome plating.

Q.16 Explain briefly the main parts of pantograph.

Q.17 Differentiate between lapping and honing with examples.

Q.18 Write short note on about jig grinding machine.

Q.19 Explain the working of copy milling machine.

Q.20 Explain the working principle of process blackening.

Q.21 Enlist various advantages and applications of honing.

Q.22 Write a short note on Indexing and dividing head.
