

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Draw the diagram of CNC drilling machine, labour its parts and explain its working. (CO7)
- Q.24 Draw the diagram of air compressor, what are common faults in air compressor and how can we rectify these faults. (CO6)
- Q.25 What kind of safety we use during electrical maintenance of a transformer explain in your own words. (CO8)

No. of Printed Pages : 4

222043

Roll No.

4th Year / Advance Diploma in Tool & Die Making Subject : Tool room machine maintenance

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Which is known as corrective maintenance? (CO1)
- a) Breakdown maintenance
 - b) Scheduled maintenance
 - c) Predictive maintenance
 - d) Preventive maintenance
- Q.2 Which cost is irrelevant to replacement analysis. (CO1)
- a) Purchase cost of the machine
 - b) Operating cost of the machine
 - c) Maintenance cost of the machine
 - d) Machine hour rate of the machine
- Q.3 What is the color coding for the ground wire in electrical system? (CO2)
- a) Red
 - b) Green
 - c) Black
 - d) Yellow

- Q.4 Which of the following device is used to measure power in A.C. circuit? (CO3)
- a) Ammeter b) Voltmeter
c) Wattmeter d) Ohmmeter
- Q.5 Following which is not the type of fire extinguisher. (CO3)
- a) CO₂ b) Soda acid
c) Nitrogen d) Foam
- Q.6 Combination plier is used to _____
- a) Hold conductor b) Twist conductor
c) Cut conductor d) Any of the above

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Expand O.L.R. (CO2)
- Q.8 Give the full form of M.C.B. (CO2)
- Q.9 Define machine maintenance. (CO8)
- Q.10 Which type of method is used for lubrication in CNC machine. (CO6)
- Q.11 Drill chuck is a part of lathe machine. True/False. (CO7)
- Q.12 Pressure gauge is used to measure _____. (CO4)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Explain what are good maintenance practices? (CO1)
- Q.14 Explain different types of Earthing. (CO2)
- Q.15 What are industrial electrical loads? Explain any two. (CO3)
- Q.16 What are active and passive component. How they works? (CO3)
- Q.17 What are common faults in hydraulic power pack? How can we rectify faults. (CO6)
- Q.18 What do you mean by preventive and breakdown maintenance. (CO5)
- Q.19 Define following terms. (CO3)
- a) Relay b) Contractor
- Q.20 Give the difference between CNC Lathe machine and CNC Grinding machine. (CO7)
- Q.21 Name any four safety devices, explain any one. (CO2)
- Q.22 Explain different types of fuses. (CO3)
