

Q.20 Write any two applications where plastics products have replaced metal products.

Q.21 Write any two applications of plastics in aircraft.

Q.22 How plastics materials are replacing wood in construction work. Write any two points.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Write any eight applications of plastics materials in medical field and agricultural field.

Q.24 Write any eight general properties of plastics materials.

Q.25 Write four applications of following

- a) Plastics Foams
- b) Plastics Laminates

No. of Printed Pages : 4
Roll No.

2nd Sem / Plastic Technology

Subject : Introduction to Plastic Processing Techniques

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The plastics materials have replaced other conventional materials, because, plastics are

- a) Light weight b) Easily Mouldable
- c) Cheap d) All of above

Q.2 Metals are heavier than plastics

- a) True b) False
- c) Can't say d) None of above

Q.3 The water bottles are made by which of following techniques

- a) Injection Moulding
- b) Compression Moulding
- c) Extrusion
- d) Blow Moulding

- Q.4 Pre conditioning is performed
a) Before Testing b) After Testing
c) During Testing d) None of above
- Q.5 The thermoplastics plastics materials can be processed by which of following techniques
a) Injection Moulding b) Extrusion
c) Blow moulding d) All of above
- Q.6 Plastics pipes are made by which of following process
a) Injection Moulding
b) Extrusion
c) Blow moulding
d) Compression moulding

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Why drying of material is required before processing.
- Q.8 Compression moulding produces hollow products.(T/F)

(2)

222222

- Q.9 Thermoset plastics are normally by injection moulding technique.
- Q.10 Plastics are insulators of heat.(T/F)
- Q.11 Write one applications of plastics in civil works.
- Q.12 Why plastics products are light in weight than steel products.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Why printing is used with plastics products.
- Q.14 Write two products made by compression moulding technique.
- Q.15 Write two products made by Blow moulding techniques.
- Q.16 Define mould.
- Q.17 Write any four applications of plastics in household.
- Q.18 Write two products made by plastics metal laminates.
- Q.19 Write two products made by foam moulding in sports goods.
