

Q.20 Discuss co-extrusion of sheets and pipes.

Q.21 Define following :

- a) Adaptor
- b) types of screw used in extrusion

Q.22 Define following :

- a) Channel width
- b) Helix angle

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain Twin screw extrusion process with neat sketch.

Q.24 With the help of neat sketch discuss manufacturing of multi-layer blown films.

Q.25 Discuss :

- a) Winding equipment
- b) Extrusion of wire and cable.

No. of Printed Pages : 4
Roll No.

222231/182232

3rd Sem / Plastic Technology

Subject : Plastic Processing Techniques - I

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Production rate of Injection Blow Moulding method is _____ than Extrusion Blow Moulding.

- a) Lower
- b) Higher
- c) equal
- d) Depends upon machine

Q.2 Screen pack is placed in at _____ in extruder?

- a) Screw and barrel
- b) Screw and breaker plate
- c) Breaker plate and die
- d) Hopper and barrel

- Q.3 The process of passing the feedstock through a series of rolls to reduce thickness to desired gauge is known as_____
- a) Calendering b) embossing
- c) Spinning d) none of the above
- Q.4 Which of the following is not an application of polymer extrusion?
- a) Door insulation seals
- b) Chewing gums
- c) Cables
- d) Circuit boards
- Q.5 Which machine or technique makes blow film?
- a) Extrusion technique
- b) Injection technique
- c) Compression technique
- d) Blow moulding
- Q.6 What is the function of die in extrusion?
- a) Final shape b) Intermediate shape
- c) Initial strength d) High Temperature

(2)

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 _____ is the unit to measure the output of extruder.
- Q.8 Name two dies used in extrusion process.
- Q.9 Name different types of calender rolls.
- Q.10 Extrudate cut into desired length in the_____.
- Q.11 Define blow up ratio?
- Q.12 _____ is the process used for sheet making.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Explain different type of calender rolls with diagram.
- Q.14 Explain co-extrusion and its importance.
- Q.15 Give four troubleshoots of calendering process.
- Q.16 Define take off and stripper section in calendaring.
- Q.17 Discuss parison programming and its importance
- Q.18 Explain importance of stretching and orientation in extrusion.
- Q.19 Define L/D and its significance.
