

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain Solenoid valve, write various checks parameters for valve systems maintenance.
- Q.24 Discuss types of power transmissions with neat diagram. Also write their advantages and disadvantages of each system.
- Q.25 Explain squirrel cage induction motor principle, working and use in Plastic industries with diagram.

No. of Printed Pages : 4

222261

Roll No.

6th Sem/ Plastic Technology

Subject : Maintenance of Plastic Processing Machines

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 The Predictive Maintenance aims at _____
- a) Less idle time
 - b) Increase in productivity
 - c) Zero down time
 - d) None of these
- Q.2 The pressure inside the lubrication system is controlled by
- a) Oil pump
 - b) Oil filter
 - c) Relief valve
 - d) Support
- Q.3 What is the full form of PLC in electronics circuit is
- a) Proper Loop Control
 - b) Program Line Control
 - c) Program Logic Control
 - d) Pre-Log Control

- Q.4 Machine foundation is subjected to :
- Static loads
 - Wind loads
 - Dynamic loads
 - Static and dynamic loads
- Q.5 The frequency of alternating current (AC) supply in India is
- 40 Hz
 - 50 Hz
 - 60 Hz
 - 70 Hz
- Q.6 Which of the following is the systematic approach for maintenance?
- Problem - cause - diagnosis - rectification
 - Problem - measure - diagnosis - rectification
 - Problem - diagnosis - cause - rectification
 - Problem - cause - measure - rectification

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define levelling.
- Q.8 Preventive maintenance and its applications is an expensive process. (True / False)
- Q.9 Define relay.

(2)

222261

- Q.10 What is use of O-Ring.
- Q.11 Define screw.
- Q.12 Write the SI unit of resistance.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Explain any one pump used in plastic processing industry with neat sketch.
- Q.14 Explain working of central lubrication system.
- Q.15 Explain with diagram oil circuit breaker.
- Q.16 Explain preventive maintenance.
- Q.17 Write the uses of thermocouple in Plastic industries.
- Q.18 Explain vibrations, write its causes.
- Q.19 Explain breakdown maintenance.
- Q.20 Explain safety rules for electric equipment's.
- Q.21 Explain Cartridge heater with a sketch.
- Q.22 Explain the function of limit switch in injection molding machine.

(3)
