

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Describe the principle, construction and working of piano card cutting machine and its role in jacquard card preparation.
- Q.24 Explain various electronic dobby and electronic jacquard systems with diagrams.
- Q.25 Describe the principle, construction and working of climax dobby with diagram in detail.

No. of Printed Pages : 4

222543

Roll No.

4th Sem / Textile Design

Subject : Fabric manufacture - II

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 The Cowburn/Eccles motion is commonly used in
- a) Plain looms b) Drop box looms
- c) Rapier looms d) None
- Q.2 Chain making in 4x4 drop box motion determines
- a) Warp selection b) Box lifting order
- c) Picking force d) None
- Q.3 A double lift dobby provides
- a) Low loom speed b) No dead center
- c) Heavy shedding load d) None
- Q.4 In an electronic jacquard, hook selection is controlled by
- a) Pegs b) Knife lifting
- c) Microprocessor d) None

Q.5 Cross-border jacquard is mainly used for

- a) Floor coverings b) Saree borders
- c) Terry towels d) None

Q.6 Straight harness tie produces

- a) Diagonal patterns b) Extra warp designs
- c) Repeating designs d) None

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 The purpose of multiple box motion is to increase _____ variety.

Q.8 Pick-and-pick looms insert _____ picks alternately.

Q.9 Paper dobbies use wooden pattern lags.(True/False)

Q.10 A jacquard shedding system works on the principle of _____ lifting.

Q.11 Leno jacquard is used for manufacturing _____ fabrics.

Q.12 Harness building involves arrangement of heddles, neck cords and _____.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Describe the classification of multiple box motions.

Q.14 Explain the construction and working of Eccles box motion.

Q.15 Write short notes on pick-at-will and pick-and-pick.

Q.16 Explain the working of a double lift dobby with neat sketch.

Q.17 Describe the construction and function of a paper dobby.

Q.18 Explain the working principle of a double lift single cylinder jacquard.

Q.19 Describe the objectives and working of inverted hook jacquard.

Q.20 Explain pointed harness tie with neat diagram.

Q.21 Write four advantages of a double lift single cylinder jacquard

Q.22 Draw a pattern chain for 4x4 box motion.
