

- Q.18 Write recipe for dyeing of wool with acid dyes.
- Q.19 Write note on washing fastness and rubbing fastness in short.
- Q.20 Write any 5 properties of basic dyes.
- Q.21 Write short note on banned dyes and chemicals.
- Q.22 Write 5 properties of disperse dyes.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain dyeing of fabric on any one dyeing machine with neat diagram, principle and working in details.
- Q.24 Explain dyeing of any blend with suitable dyes.
- Q.25 Write note on different fastness properties in details.

5th Sem / Textile Design

Subject : Dyeing Technology - II

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Polyester can be dyed by _____ Method.
- a) Carrier Dyeing b) HTHP
- c) Thermo Fixation d) All of these
- Q.2 Silk can be dyed by _____
- a) Mordant dyes b) Metal complex dyes
- c) Acid dyes d) All of these
- Q.3 The fibre obtained from worm is _____
- a) Cotton b) Acetate
- c) Silk d) Polyester

- Q.4 Disperse dyes have affinity for_____
- a) Polyester b) Nylon
- c) Acetate d) All of these
- Q.5 Polyester material is mostly dyed with_____
- a) Basic dyes b) Disperse dyes
- c) Reactive dyes d) None of these
- Q.6 Fibre Dyeing is done on _____ Machine
- a) Loose Cotton Dyeing Machine
- b) Hank Dyeing Machine
- c) Jigger Dyeing Machine
- d) Jet Dyeing Machine

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Hand Dyeing machine is used for dyeing of_____ (Yarn/Fabric)

- Q.8 Name any two fabric dyeing machine.
- Q.9 Name the dye used for dyeing of wool.
- Q.10 100% Acrylic fibre is difficult to dye. (True/False)
- Q.11 Polyester fibre is having affinity for_____ (Disperse/Reactive dye)
- Q.12 HT/HP stands for_____

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Write note on HT/HP dyeing Process for Polyester
- Q.14 Explain basic method of dyeing P/C blend fabric.
- Q.15 Write down four properties of both acid dyes and metal complex dyes.
- Q.16 What are four essential qualities for a carrier used in carrier dyeing? At which temperature carrier dyeing and thermo fixation process is carried out?
- Q.17 How will you produce level dyeing in acrylic fibre dyeing by basic dye?
