Time : 3 Hrs.

M.M. : 60

### SECTION-A

**Note:** Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 The process of applying single or multicolor in a controlled area on a fabric is known as:
- a) Dyeing                      b) Bleaching
- c) Singing                     d) Printing
- Q.2 Which of these is not used in printing?
- a) Wooden Blocks          b) Calender Roll
- c) Screen                      d) Stencil
- Q.3 Which of these is not a method of printing?
- a) Block                        b) Stencil
- c) Discharge                 d) Screen

a) Wood                      b) Silver  
c) Copper                    d) Steel

- Swelling Agent
- Thickener
- Wetting Agent
- Oxidizing and Reducing Agent

a) Screen printing      b) Stencil Printing  
c) Digital Printing      d) Roller printing

**Note:** Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.10 What is the object of curing?

Q.12 Name two faults in screen printing.

**Note:** Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.14 Explain the essential qualities of a thickener used in printing of textiles.

Q.16 Describe the objectives of washing.

Q.17 Explain the steps of block printing.

**Q.18** What are the advantages of block printing?

Q.19 Write a short note on stencils printing.

Q.20 Describe the photo chemical method of making screen.

**Q.21** Mention the various parts of roller printing machine.

Q.22 Write down the advantages of roller printing.
