Roll No.

3rd Sem / Textile Technology

Subject : Textile Printing and Finishing

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Which of these is not a method of printing?
- a) Block b) Stencil
- c) Discharge d) Screen
- Q.2 Which of these is not used in printing?
- a) Wooden blocks b) Calender roll
- c) Screen d) Stencil
- Q.3 The most modern technique of textile printing, is:
- a) Block printing b) Digital printing
- c) Rotary printing d) Stencil printing

Q.4 Which finish comes in the category of functional finishes?

- a) Shearing b) Moth proof
- c) Softening d) stiffening

Q.5 Swizzing is a type of:

- a) Heat setting process
- b) Water extracting process
- c) Tentering process
- d) Calendering process

Q.6 Vulcanized natural rubber is used in which type of finished fabric?

- a) Soil proof b) Moth proof
- c) Fire proof d) Water proof

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 What is the object of printing?

Q.8 What is the function of wetting agent in printing?

Q.9 What is the function of reducing agent in printing?

(2)

Q.10 Name various finishes based up a degree of performance.

Q.11 Give one purpose of mechanical finishes.

Q.12 Name one chemical used as softener.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 What is the difference between styles of printing and methods of printing?

Q.14 Write a short note on direct style of printing.

Q.15 Write a short note on design developement.

Q.16 Write a short note on ageing.

Q.17 Write down the working principle of hydro extractor.

Q.18 What are the functions of a stenter machine?

Q.19 Name the parameters affecting the performance of calendering.

Q.20 What are the heat setting parameters for importance synthetic fibres?

Q.21 Explain the principle of water repellent finish.

Q.22 What is the important of Durable Press Finishes?
