

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain the passage of material through ring frame by showing its various parts with diagram.

Q.24 What is the function of winding? Explain the building motion mechanism, yarn separator and lappets.

Q.25 What is yarn doubling? Explain the effects of doubling and wet and dry system of doubling.

No. of Printed Pages : 4

Roll No.

5th Sem / Textile Technology

Subject : Spinning Technology - III

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 What is the maximum count to be produced in ring m/c in spinning.

- | | |
|--------|--------|
| a) 10 | b) 50 |
| c) 300 | d) 500 |

Q.2 The yarn having more tensile strength_____

- | | |
|---------------|------------------|
| a) Ring spun | b) Rotor spun |
| c) Both A & B | d) None of these |

Q.3 What is the ring frame wastage?

- | | |
|---------------|---------------|
| a) Hard waste | b) Soft Waste |
| c) Durt | d) Dust |

- Q.4 The yarn having more softness is _____
- a) Carded b) Ring spun
- c) Melt Spun d) Combed
- Q.5 What is the main limitation of ring spinning that led to the development of new spinning systems?
- a) Low productivity
- b) High energy consumption
- c) Limited fiber compatibility
- d) All of the above
- Q.6 Weight of Package in rotor spinning is _____
- a) Upto 50 kg b) upto 25 kg
- c) Upto 5 kg d) Upto 1.5 kg

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 $TPI = \frac{\text{Count}}{\sqrt{\text{Count}}}$
- Q.8 Break draft (Draw Frame) = surface speed of 2nd roller / _____
- Q.9 Which is more finer 10 Tex / 20 Ne.

- Q.10 Apron drafting system is of _____ types.
- Q.11 Input material in ring frame is _____.
- Q.12 Name two types of ring used in ring frame.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Write the function of drafting machine?
- Q.14 Write short note on Cost Analysis.
- Q.15 What is yarn ballooning ? How it is controlled?
- Q.16 What is the difference between direct and indirect count system?
- Q.17 What are the reasons of end breakages in ring frame.
- Q.18 Explain the roller drafting system in ring frame.
- Q.19 Explain the types of ring travellers.
- Q.20 Explain various modifications done in modern ring frame.
- Q.21 What is the effect of twist on yarn?
- Q.22 What is difference between compact and normal yarn.
