

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain the different factors which effects the production and efficiency of the loom.
- Q.24 Explain the Functioned of Selvedge. Draw the different Types of Selvedge's
- Q.25 Explain the weft insertion cycle of Gripper loom as well as write down the working of Gripper loom.

No. of Printed Pages : 4
Roll No.

222752

5th Sem / Textile Technology

Subject : Advanced Fabric Manufacturing

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Type of selvedge is _____
- a) Fused b) Tucked
c) none of a and b d) both of a and b
- Q.2 Water jet looms are also known as _____ looms.
- a) Griper b) Hydraulic
c) Pneumatic d) Rapier
- Q.3 The weft feeler which causes maximum damage to weft is
- a) Mechanical feeler
b) Electrical feeler
c) Photo Electrical feeler
d) None of these

Q.4 Release of warp sheet from the weavers beam is known as

- a) Beat-up b) Take up
- c) Let-off Motion d) Picking

Q.5 Function of weft feeler is to check _____

- a) Presence of weft on pirn
- b) Presence of weft in fabric
- c) Presence of weft in heald frame
- d) None of the above

Q.6 Minimum rate of weft insertion is in _____ loom .

- a) Air jet b) Rapier
- c) Projectile d) Conventional

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 What is Loom?

Q.8 What is warp stop motion?

Q.9 What is role of temple in loom?

Q.10 Expand the term GSM.

Q.11 What is terry pile fabric?

Q.12 The weft insertion method on water jet loom is _____ (Unilateral/Bilateral)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Name the different types of fabric defects.

Q.14 Differentiate between conventional and Non Conventional Looms.

Q.15 Write the disadvantages of mechanical warp feeler mechanism over photo electric weft feeler.

Q.16 What is the function of temple in Loom?

Q.17 Calculate the production in meters of a water Jet loom running at 700 PPM at 90% efficiency for 8 hours, producing a fabric with 60 PPI.

Q.18 Draw the line diagram for 4 Pick terry.

Q.19 Write down main features/specification of Rapier loom.

Q.20 Write down the different factors which effects the efficiency of the loom.

Q.21 Differentiate between Gabler and Dewas system of rapier.

Q.22 Write down the principle of water jet loom.
