

No. of Printed Pages : 4
Roll No.

2nd Sem / Fashion Technology Fash. Desgn, Garment Tech.

**Subject : Textile Fundamentals/ Textile Science - II /
Textile Science - I / Fundamentals of Textile Science**

Time : 3 Hrs. M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Which of the below is NOT a Novelty yarn?

- a) Boucle b) Slub
c) Chenille d) Cable

Q.2 In _____ process permanent whiteness is given to cotton fabrics.

- a) Mercerization b) Bleaching
c) Scouring d) De-sizing

Q.3 In which operation Twist is imparted to sliver to make yarns?

- a) Carding b) Blow-room
c) Draw frame d) Ring frame

- Q.4 Which of the following is a staple fiber?
- a) Silk b) Polyester
- c) Nylon d) Cotton
- Q.5 What is the primary method for constructing non-woven fabrics.
- a) Interlacing two sets of yarns
- b) Interloping a single set of yarns
- c) Bonding or interlocking fibers directly
- d) Dyeing yarns before fabric formation
- Q.6 A common defect characterized by variations in fabric density or thickness often due to uneven yarn distribution is called_____.
- a) Watermark b) Floats
- c) Barre d) Uneven shading

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Twill is a basic weave.(True/False)
- Q.8 Define critical Defects.
- Q.9 Which finish provides Lustre to fabric surface?

(2) 222922/122922/032922
/122912/032912
/092941-LE

- Q.10 What is the unit of yarn count that represents the weight in grams of 9000 meters of yarn?
- Q.11 Name one natural protein filament fiber.
- Q.12 What property of fibers determines their ability to allow heat to pass through them?

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Explain the effect of Acids and Alkalis on Polyester fibre.
- Q.14 Explain in brief direct system of yarn count.
- Q.15 What is printing? Explain styles of printing.
- Q.16 With the help of neat sketch explain the shape and structure of wool fibre.
- Q.17 Define Defect. How defects are classified on the basis of Severity?
- Q.18 How does the presence of twist influence yarn properties?
- Q.19 Briefly explain the concept of sliver preparation for spinning and name one process involved.
- Q.20 Differentiate between single yarn and ply yarn.
- Q.21 State the primary objective of bleaching in textile processing.
