

Q.21 What is traction unit? Explain it.

Q.22 Write a note on intensity - Time Curve.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain TENS Machine in details with block diagram.

Q.24 What is infant incubator? Explain it with block diagram.

Q.25 Explain solid state electro-surgery unit with block diagram description.

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The depth of penetration of microwave diathermy is

- a) 0.5cm b) 3cm
- c) 1.3cm d) 5cm

Q.2 Which of the following modality is most suitable for spasticity

- a) Ultrasonic b) TENS
- c) Cryotherapy d) Hot packs

Q.3 The resting membrane potential of skeletal muscle fiber is

- a) -90 Mv b) -9 Mv
- c) -90 Micro V d) -9 Micro V

(1)

223254

Q.4 Hydro-Collator packs are heater in water up to

- a) 90-100 F b) 110-130 F
- c) 140-160 F d) 180-200 F

Q.5 The frequency used in ultrasound therapy is

- a) 22000-25000 KHz b) 800-3000 KHz
- c) 5000-10000 KHz d) None

Q.6 Muscle contracture is an adaptative change in

- a) Normal muscle immobilized for a long time
- b) Dystrophic muscles of myopathy
- c) Muscles affected by myoclonic seizures
- d) None of above

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Electric Simulation.

Q.8 Electromagnetic spectrum.

Q.9 Expand SWD.

Q.10 Iontophoresis.

Q.11 Expand CPM.

Q.12 Cryotherapy.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Write a note on muscle & nerve response to electric stimulation.

Q.14 Explain advantages of high frequency thermos-therapy.

Q.15 Write a note electrotherapy & different waveform used in it.

Q.16 Explain magnetic stimulator with block diagram.

Q.17 Explain infra-red diathermy.

Q.18 Write a note on electro-diagnosis.

Q.19 Explain phonophoresis in details.

Q.20 Explain neuromuscular stimulation & its classification.
