- a) cal b) mv
- c) is d) who

Q.24 Explain the role of the GNU Compiler Collection (GCC) in software development on Linux. How does GCC contribute to compiling, linking, and optimizing programs written in C, C++, or other supported languages? (CO-4)

Q.25 Explain the role of networking tools and commands in managing and troubleshooting network connections on Linux. (CO-5)

No. of Printed Pages : 4

223845B

Roll No.

4th Semester/ Artificial Intelligence & Machine Learning

Subject : Linux and its Application

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 Linux is a _____ Operating system. (CO1)

- a) Single user Single task
- b) Multi users Single task
- c) Single user Multiple task
- d) Multi user Multi tasking

Q.2 Linux offers _____ Interface. (CO1)

- a) Command-Line Interface (CLI)
- b) Graphical User Interface (GUI)
- c) Both (a) and (b)
- d) None of the above

Q.3 Which command is used to display the first few lines of a file? (CO2)

- a) more b) cat
- c) tail d) head

- Q.4 Which command is used to list files in a directory in Linux? (CO2)
- a) list b) Is
c) dir d) show
- Q.5 Which looping construct is used to iterate through a list of items in shell scripting? (CO-3)
- a) for b) while
c) until d) select
- Q.6 Which Linux service is responsible for assigning IP addresses dynamically? (CO-5)
- a) FTP b) DNS
c) DHCP d) NFS

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define kernel in Linux operating system? (CO-1)
- Q.8 Which famous open-source license is associated with Linux? (CO-1)
- Q.9 In Linux, the _____ command in Linux is used for archiving files and directories. (CO-5)
- Q.10 FTP stands for _____ (CO-5)
- Q.11 Define who command. (CO-2)
- Q.12 Define a Linux shell. (CO-3)
