

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 What do you mean by secondary data? Enumerate the various methods of collecting secondary data. Discuss the merits and demerits of any one of them.
- Q.24 What do you mean by index numbers? Explain the various methods of calculating index numbers.
- Q.25 What do you mean by tabulation? Explain the importance and types of tabulation.

2nd Sem / Fin., Acc. & Aud., Business Management

**Subject : Business Statistics/ Business Statistics- II/
Business Mathematics and Statistics**

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Which of the following is not a measure of central tendency?
- a) Mode b) Standard deviation
- c) Median d) None of the above
- Q.2 The ideal formula for construction of index number is:
- a) Paasche's formula b) Laspeyres's formula
- c) Fischer's formula d) None of the above
- Q.3 Which of the following are the characteristics of statistics:
- a) Numerically expressed
- b) Aggregate of facts
- c) Affected by multiplicity of causes
- d) All of these

- Q.4 What it is called when data source is collected and compiled with others?
- a) Primary data b) Secondary data
c) Quantitative data d) Qualitative data
- Q.5 To calculate the median, all the items of a series have to be arranged in a/an
- a) Ascending order
b) Descending order
c) Ascending or descending order
d) None of the above
- Q.6 What is the mean of the following numbers: 23, 45, 87, 40, 50
- a) 50 b) 51
c) 48 d) 49

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define Range.
- Q.8 Define Primary data.
- Q.9 Statistics studies the quantitative variables only (True/False)
- Q.10 mean, median and mode are various measures of central tendency (True/False)

(2) 224123/124123/084123

- Q.11 Under random sampling each item of the universe has equal chance of being selected (True/False)
- Q.12 Statistics does not solve economic problem (True/False)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Explain any four features of statistics.
- Q.14 What are the main sources of primary data.
- Q.15 Explain the various uses of mean.
- Q.16 Write any two advantage and disadvantages of Index number.
- Q.17 Explain mean and quartile deviation.
- Q.18 Explain the scope of statistics in business management.
- Q.19 What are the business application of measures of central tendency?
- Q.20 Explain the types of graphs briefly.
- Q.21 What do you mean by standard deviation and variance?
- Q.22 Explain the uses of median.

(3) 224123/124123/084123
